

The South Indian Association's
The S.I.A. College of Higher Education

Affiliated to University of Mumbai

Accredited B+ by NAAC

P-88, MIDC Residential Area Dombivli Gymkhana Road,
Near Balaji Mandir, Dombivli (East), 421203.

III. Teaching Plan

The S.I.A College of Higher Education

ATTAINMENT OF TEACHING PLAN

Lecture Planned: 75 Lecture Taken: 38 Attainment % : 50

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
July	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Environment and Ecosystem Environment	Meaning, Definition, Scope and Components	2	1	Audio Visual	Audio Visual	, na	
July	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Environment and Ecosystem Ecosystem	Concept of an Ecosystem, Definition, Characteristics, components and types, functioning and structure	3	2	Audio Visual	Audio Visual	, na	
July	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Environment and Ecosystem Food Chain and food web	Food Chain and Food Web, Ecological pyramid	3	1	Audio Visual	Audio Visual	, na	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
July	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Environment and Ecosystem Man Environment Relationship	Man and Environment Relationship, importance and scope of environmental studies	5	2	Audio Visual	Audio Visual	, na, na	
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Environment and Ecosystem Man Environment Relationship	Man and Environment Relationship, importance and scope of environmental studies	5	1	Audio Visual	Audio Visual	, na, na	
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Natural Resources and Sustainable Development Meaning and Definitions	Classification and types of resources , factors influencing resource utilization	2	1	Audio Visual	Audio Visual	, na	
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Natural Resources and Sustainable Development Resource Conservation	Meaning and Methods, conventional and non-conventional resources	2	2	Audio Visual	Audio Visual	, na	
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Natural Resources and Sustainable Development Problems associated with management of resources	Problems associated with and management and water, forest and energy resources	4	2	Audio Visual	Audio Visual	, na	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Natural Resources and Sustainable Development Resource Utilization	Resource utilization and sustainable development	5	1	Audio Visual	Audio Visual	, na	
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Population Explosion	population explosion in the world and in India and arising concerns	3	1	Audio Visual	Audio Visual	, na	

Month	Course Outcome	Topic	Sub-Topic	Core Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Demographic Transition Theory	Demographic Transition Theory	2	1	Audio Visual	Audio Visual	, na	
August	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Patterns of population growth	Pattern of Population Growth in the world and in India and associated problems, Measures taken to control population growth in India	4		Audio Visual	Audio Visual	, na, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Patterns of population growth	Pattern of Population Growth in the world and in India and associated problems, Measures taken to control population growth in India	4	1	Audio Visual	Audio Visual	, na, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Human Population and environment	Human Population and Environment, Environment and human health, Human Development Index, The world happiness index	5	1	Audio Visual	Audio Visual	, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Human Population and environment	Environment and human health	2		Audio Visual	Audio Visual	, na	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Human Population and environment	Human development index	2		Audio Visual	Audio Visual	, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Populations and Emerging Issues of Development Human Population and environment	The world happiness index	2		Audio Visual	Audio Visual	, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Urbanization and Environment Concept of Urbanization	Concept of urbanization, problems of migration and urban environment	2	1	Audio Visual	Audio Visual	, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Urbanization and Environment Changing and land use	Changing land use, crowding and stress on urban resources	2	1	Audio Visual	Audio Visual	, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Urbanization and Environment degradation	Degradation of soil and water	2	1	Audio Visual	Audio Visual	, na	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Urbanization and Environment smart cities	Emerging smart cities and safe cities in India	2	2	Audio Visual	Audio Visual	, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Urbanization and Environment Urban heat island	Urban Heat Island	1	1	Audio Visual	Audio Visual	, na	
September	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Reading of Thematic Maps and Map Filling Reading of Thematic Map;	Located Bars, Circles, Pie Charts, Isopleths, Choropleths and Flow Map, Pictograms- Only reading and Intrepretation	4	3	Experiential	Audio Visual	, na, na	
October	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Reading of Thematic Maps and Map Filling Reading of Thematic Map;	Located Bars, Circles, Pie Charts, Isopleths, Choropleths and Flow Map, Pictograms- Only reading and Intrepretation	4	6	Experiential	Audio Visual	, na, na	
October	Gain more understanding regarding working of Environmental Processes. ? Have higher levels of awareness and sensitivity regarding Environment and related problems ? Gain a sound base to involve actively in working towards the resolution of environmental problems to the best of Individual capacity.	Reading of Thematic Maps and Map Filling Map Filling	Map filling of World (Environmentally significant features) using pint, line and polygon segment, Concept and calculation of ecological footprint	4	6	Experiential	Audio Visual	, na

CO2:To define the concept of interest, distinguish between Simple and Compound Interest, Present and Future Value and apply it to find Amortisation table	UNIT II:Interest and Annuity Interest	Simple Interest, Compound Interest (Nominal& Effective Rate of Interest), Calculations involving upto 4 time periods.	7 [March]	11 [January]	Interactive	Interactive	, N, N6	
CO2:To define the concept of interest, distinguish between Simple and Compound Interest, Present and Future Value and apply it to find Amortisation table	UNIT II:Interest and Annuity Annuity	Annuity Immediate and its Present value, Future value. Equated Monthly Installments (EMI) using reducing balance method and amortization of loans. Stated Annual Rate and Affective Annual Rate Perpetuity and its present value. Simple problems involving up to 4 time periods.	8 [March]	4 [January]	Interactive	Interactive	, N	
CO4:To be able to define,describe and calculate trend lines and trend values by using various time series methods and index numebers.	UNIT IV:Time series and Index Numbers Time series	Concepts and components of a time series. Representation of trend by Freehand Curve Method, Estimation of Trend using Moving Average Method and Least Squares Method (Linear Trend only). Estimation of Seasonal Component using Simple Arithmetic Mean for Additive Model only (For Trend free data only). Concept of Forecasting using Least Squares Method.	8 [February]	2 [January]	Interactive	Interactive	, N, N	
CO1: To understand,identify and apply the concept of rate of change in economics and business	UNIT I:Functions, Derivatives and Their Applications Functions	Concept of real functions: Constant function, linear function, $x^n, e^x, a^x, \log x$. Demand, Supply, Total Revenue, Average Revenue, Total cost, Average cost and Profit function. Equilibrium Point, Break-even point.	5 [January]	6 [February]	Interactive	Interactive	, N, N	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
CO1: To understand, identify and apply the concept of rate of change in economics and business	UNIT I: Functions, Derivatives and Their Applications Derivatives of functions	Derivative of functions: Derivative as rate measure, Derivative of $x^n, e^x, a^x, \log x$. Rules of derivatives: Scalar multiplication, sum, difference, product, quotient, (Statements only), Simple problems. Second order derivatives.	6 [January]	2 [February]	Interactive	Interactive	, N, N	
CO4: To be able to define, describe and calculate trend lines and trend values by using various time series methods and index numbers.	UNIT IV: Time series and Index Numbers Time series	Concepts and components of a time series. Representation of trend by Freehand Curve Method, Estimation of Trend using Moving Average Method and Least Squares Method (Linear Trend only). Estimation of Seasonal Component using Simple Arithmetic Mean for Additive Model only (For Trend free data only). Concept of Forecasting using Least Squares Method.	8 [February]	7 [February]	Interactive	Interactive	, N, N	
CO4: To be able to define, describe and calculate trend lines and trend values by using various time series methods and index numbers.	UNIT IV: Time series and Index Numbers Index Numbers	Concept and usage of Index numbers, Types of Index numbers, Aggregate and Relative Index Numbers, Laspeyres's, Paasche's, Dornbusch-Bowley's, Marshall-Edgeworth and Fisher's ideal index numbers, Test of Consistency: Time Reversal Test and Factor Reversal Test. Chain Base Index Nos. Shifting of Base year. Cost of Living Index Numbers, Concept of Real Income, Concept of Wholesale Price Index Number. (Examples on missing values should not be taken)	7 [February]	4 [February]	Interactive	Interactive	, N	
CO1: To understand, identify and apply the concept of rate of change in economics and business	UNIT I: Functions, Derivatives and Their Applications Functions	Concept of real functions: Constant function, linear function, $x^n, e^x, a^x, \log x$. Demand, Supply, Total Revenue, Average Revenue, Total cost, Average cost and Profit function. Equilibrium Point, Break-even point.	5 [January]	2 [March]	Interactive	Interactive	, N, N	
CO1: To understand, identify and apply the concept of rate of change in economics and business	UNIT I: Functions, Derivatives and Their Applications Derivatives of functions	Derivative of functions: Derivative as rate measure, Derivative of $x^n, e^x, a^x, \log x$. Rules of derivatives: Scalar multiplication, sum, difference, product, quotient, (Statements only), Simple problems. Second order derivatives.	6 [January]	3 [March]	Interactive	Interactive	, N, N	
CO1: To understand, identify and apply the concept of rate of change in economics and business	UNIT I: Functions, Derivatives and Their Applications Applications	Applications: Marginal Cost, Marginal Revenue, Elasticity of Demand. Maxima and Minima for functions in Economics and Commerce.	4 [January]	4 [March]	Interactive	Interactive	, N	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
CO5: To define and recognize different types of probability distribution and its application.	UNIT V: Elementary Probability Distributions Probability Distribution	Discrete Probability Distribution: Binomial, Poisson , Continuous Probability distribution: Normal Distribution.	15 [March]	6 [March]	Interactive	Interactive	, N	
CO3: To understand ,interpret and analyse the strength of linear relation between bivariate data and the prediction of unknown data using a known data	UNIT III: Bivariate Linear Correlation and Regression Correlation	Meaning, Types of Correlation, Determination of Correlation: Scatter diagram, Karl Pearsons method of Correlation Coefficient (excluding Bivariate Frequency Distribution Table) and Spearmans Rank Correlation Coefficient.	3 [December]	6 [December]	Interactive	Interactive	, Er	
CO3: To understand ,interpret and analyse the strength of linear relation between bivariate data and the prediction of unknown data using a known data	UNIT III: Bivariate Linear Correlation and Regression analysis	Meaning, Concept of Regression equations, Slope of the Regression Line and its interpretation. Regression Coefficients (excluding Bivariate Frequency Distribution Table), Relationship between Coefficient of Correlation and Regression Coefficients , Finding the equations of Regression lines by method of Least Squares.	5 [January]	2 [December]	Interactive	Interactive	, R

ATTAINMENT OF TEACHING PLAN [THEORY] FOR ACADEMIC YEAR: 2023-24

Report of FIRST YEAR BACHELOR OF COMMERCE-B for Semester 1 Of Mathematical and Statistical Techniques-I

Lecture Planned: 32 Lecture Taken: 65 Attainment % : 203

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
..	Unit 3 Summarization Measures	Measures of Central Tendencies: Definition of Average, Types of Averages: Arithmetic Mean, Median, and Mode for grouped as well as ungrouped data. Quartiles, Deciles and Percentiles. Using Ogive locate median and Quartiles. Using Histogram locate mode. Combined and Weighted mean. • Measures of Dispersions: Concept and idea of dispersion. Various measures Range, Quartile Deviation, Mean Deviation, Standard Deviation, Variance, Combined Variance.	5 [August]	4 [July]	Participative	Interactive	, Measure of central tendency, Measure of central tendency, Measure of Dispersion	
.	Unit 1 Shares and Mutual Funds	Shares: Concept of share, face value, market value, dividend, equity shares, preferential shares, bonus shares. Simple examples. • Mutual Funds: Simple problems on calculation of Net income after considering entry load, dividend, change in Net Asset Value (N.A.V.) and exit load. Averaging of price under the Systematic Investment Plan (S.I.P)	10 [August]	1 [August]	Participative	Interactive	, Shares, Mutual funds, Shares and mutual fund	
..	Unit 3 Summarization Measures	Measures of Central Tendencies: Definition of Average, Types of Averages: Arithmetic Mean, Median, and Mode for grouped as well as ungrouped data. Quartiles, Deciles and Percentiles. Using Ogive locate median and Quartiles. Using Histogram locate mode. Combined and Weighted mean. • Measures of Dispersions: Concept and idea of dispersion. Various measures Range, Quartile Deviation, Mean Deviation, Standard Deviation, Variance, Combined Variance.	5 [August]	20 [August]	Participative	Interactive	, Measure of central tendency, Measure of central tendency, Measure of Dispersion	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
	Unit 1 Shares and Mutual Funds	Shares: Concept of share, face value, market value, dividend, equity shares, preferential shares, bonus shares. Simple examples. • Mutual Funds: Simple problems on calculation of Net income after considering entry load, dividend, change in Net Asset Value (N.A.V.) and exit load. Averaging of price under the Systematic Investment Plan (S.I.P.)	10 [August]	7 [September]	Participative	Interactive	, Shares, Mutual funds, Shares and mutual fund	
	Unit 5 Decision Theory	Decision making situation, Decision maker, Courses of Action, States of Nature, Pay-off and Pay-off matrix; Decision making under uncertainty, Maximin, Maximax, Minimax regret and Laplace criteria; simple examples to find optimum decision. Formulation of Payoff Matrix. Decision making under Risk, Expected Monetary Value (EMV); Decision Tree; Simple Examples based on EMV. Expected Opportunity Loss (EOL), simple examples based on EOL.	5 [July]	13 [September]	Participative	Interactive	, Decision theory , Decision theory	
	Unit 1 Shares and Mutual Funds	Shares: Concept of share, face value, market value, dividend, equity shares, preferential shares, bonus shares. Simple examples. • Mutual Funds: Simple problems on calculation of Net income after considering entry load, dividend, change in Net Asset Value (N.A.V.) and exit load. Averaging of price under the Systematic Investment Plan (S.I.P.)	10 [August]	3 [October]	Participative	Interactive	, Shares, Mutual funds, Shares and mutual fund	
	Unit 2 Permutation, Combination and Linear Programming Problems	Permutation and Combination: Factorial Notation, Fundamental principle of counting, Permutation as arrangement, Simple examples, combination as selection, Simple examples, Relation between n Cr and n Pr Examples on commercial application of permutation and combination	6 [September]	8 [October]	Participative	Interactive	, Decision theory, LPP, Permutations and Combinations	
	Unit 4 Elementary Probability Theory	Probability Theory: Concept of random experiment/trial and possible outcomes; Sample Space and Discrete Sample Space; Events their types, Algebra of Events, Mutually Exclusive and Exhaustive Events, Complimentary events. Classical definition of Probability, Addition theorem (without proof), conditional probability. Independence of Events: $P(A \cap B) = P(A) P(B)$. Simple examples.	6 [September]	6 [October]	Participative	Interactive	, Probability	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
.	Unit 5 Decision Theory	Decision making situation, Decision maker, Courses of Action, States of Nature, Pay-off and Pay-off matrix; Decision making under uncertainty, Maximin, Maximax, Minimax regret and Laplace criteria; simple examples to find optimum decision. Formulation of Payoff Matrix. Decision making under Risk, Expected Monetary Value (EMV); Decision Tree; Simple Examples based on EMV. Expected Opportunity Loss (EOL), simple examples based on EOL.	5 [July]	3 [October]	Participative	Interactive	, Decision theory, Decision theory

ATTAINMENT OF TEACHING PLAN

Lecture Planned: 37 Lecture Taken: 34 Attainment % : 91

Month	Course Outcome	Topic	Sub-Topic	Lecture		Methodology		Links	Remarks
				Planned	Taken	Planned	Methodology Taken		
June	1. Explain the concepts of income, like GDP, GNP, NDP, NNP, market price, factor cost, and differentiate between them 2. Apply the concepts of macroeconomics to real life situations	Unit 1 Overview of Macroeconomics	Introduction, meaning, scope, and importance of macroeconomics, circular flow of income and expenditure	5	6	Audio Visual	Audio VisualInteractive	, Circular flow of income , Circular flow of income answer written in class, Circular flow of income answer writtwn, Circular flow of income contd, Introduction to macroeconomics, Introduction to macroeconomics contd, Introduction to sem 3, Meaming and concept of national income-gdp and gnp	
June	1. Explain the concepts of income, like GDP, GNP, NDP, NNP, market price, factor cost, and differentiate between them 2. Apply the concepts of macroeconomics to real life situations	Unit 1 Overview of Macroeconomics	Measurement of National product, trade cycles, Say's law of markets	5	2	Audio Visual	Audio VisualParticipative	, National income meaning, gdp and gnp, NDP NNP MP AND FC, Book checking and notes completion, Concepts of national income , Economic welfare, green gnp, Formula on board, National income and welfare, green gnp, Revision of module 1, Trade cycles, Trade cycles and says law	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
July	1. Explain the concepts of income, like GDP, GNP, NDP, NNP, market price, factor cost, and differentiate between them 2. Apply the concepts of macroeconomics to real life situations	Unit 1 Overview of Macroeconomics	Measurement of National product, trade cycles, Say's law of markets	5	5	Audio Visual	Audio VisualInteractiveParticipative	, National income meaning, gdp and gnp, NDP NNP MP AND FC, Book checking and notes completion, Concepts of national income , Economic welfare, green gnp, Formula on board, National income and welfare, green gnp, Revision of module 1, Trade cycles, Trade cycles and says law	
July	Explain the concepts of inflation, demand for money, supply of money, velocity of money	Unit 4 Money, Prices, and Inflation	Money supply-velocity of circulation of money	2	1	Participative	Interactive	, Money supply meaning and components, Supply of money , Money ss	
July	Explain the concepts of inflation, demand for money, supply of money, velocity of money	Unit 4 Money, Prices, and Inflation	Demand for money-theories	5		Participative	Audio Visual	, Dd theories	-
August	Understand and evaluate contribution of other economists towards the development of modern macroeconomic theory	Unit 3 Post-Keynesian Developments in Macroeconomics	IS-LM Model	4	6	Audio Visual	Audio VisualInteractiveParticipative	, Assignment checking, IS curve , Is model written, Is started , Lm answer, Lm curve, Test on mcq mod 1 and mod 2 , Is lm and fiscal monetary policy	
August	Explain the concepts of inflation, demand for money, supply of money, velocity of money	Unit 4 Money, Prices, and Inflation	Money supply-velocity of circulation of money	2	3	Participative	Audio Visual	, Money supply meaning and components, Supply of money , Money ss	
August	Explain the concepts of inflation, demand for money, supply of money, velocity of money	Unit 4 Money, Prices, and Inflation	Inflation-demand pull, cost push, effects, inflation targeting	4	3	Participative	Audio VisualInteractiveParticipative	, Answer written in class, Class test, Inflation, Revised module 4, Revision, Revision of module 4 and paper distribution	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
September	Understand and evaluate contribution of Keynes to macroeconomics	Unit 2 Basic Concepts of Keynesian Economics	Effective Demand, Consumption Function	2	1	Audio Visual	Audio Visual	, Module 2	
September	Understand and evaluate contribution of Keynes to macroeconomics	Unit 2 Basic Concepts of Keynesian Economics	Investment Function, MEC, Multiplier	4	3	Audio Visual	Audio VisualInteractive	, Module 2, Revision lecture	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
September	Understand and evaluate contribution of Keynes to macroeconomics	Unit 2 Basic Concepts of Keynesian Economics	Relevance of Keynesian theory tools to the developing countries	2	2	Audio Visual	Participative	, Concepts written in class, Practice sums	
September	Understand and evaluate contribution of other economists towards the development of modern macroeconomic theory	Unit 3 Post-Keynesian Developments in Macroeconomics	IS-LM Model	4	1	Audio Visual	Interactive	, Assignment checking, IS curve , Is model written, Is started , Lm answer, Lm curve, Test on mcq mod 1 and mod 2 , Is lm and fiscal monetary policy	
September	Understand and evaluate contribution of other economists towards the development of modern macroeconomic theory	Unit 3 Post-Keynesian Developments in Macroeconomics	Phillips Curve, Stagflation, supply-side economics	4	1	Audio Visual	Interactive	, Phillips curve, Phillips curve ans stagflation

Manu Devo

Lecture Planned: 38 Lecture Taken: 38 Attainment % : 100

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
June	* Understand improvement in different generations of computer.	Unit1 HARDWARE	Evolution of Computers – Generations, Types of Computers, Computer System, Characteristics, Basic Components of a Digital Computer – Control Unit, ALU, Input / Output, Functions and Memory, Memory Addressing Capability of a CPU, Binary number system, Binary addition (1's complement, 2's Complement), Binary to decimal and Decimal to Binary Conversion, Octal Number, Hexadecimal System, World length of a computer, processing speed of a computer.	10	7	Interactive	Interactive	, unit 1 started , unit 1 started	
July	* Understand improvement in different generations of computer.	Unit1 HARDWARE	Evolution of Computers – Generations, Types of Computers, Computer System, Characteristics, Basic Components of a Digital Computer – Control Unit, ALU, Input / Output, Functions and Memory, Memory Addressing Capability of a CPU, Binary number system, Binary addition (1's complement, 2's Complement), Binary to decimal and Decimal to Binary Conversion, Octal Number, Hexadecimal System, World length of a computer, processing speed of a computer.	10	2	Interactive	Interactive	, unit 1 started , unit 1 started	
July	Categorize different types of software's and their usage.	UNIT2 : SOFTWARE	Software and its Need, Types of Software – System Software, Application software, System Software – Operating System, Utility Program, Algorithms, Flow Charts – Symbols, Rules for making Flow chart, Programming languages, Assemblers, Compilers and Interpreter, Computer Applications in Business.	10	4	Interactive	Interactive	, unit 1 started , unit 2 started	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	Structure of C program	1	1	Interactive	Interactive	, Unit 3 started	
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	Keywords, identifies, constants	1	1	Interactive	Interactive	, Unit 3 started	
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	variables and data types	1	1	Interactive	Interactive	, Unit 3 started	
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	type modifier and type conversion	1	1	Interactive	Interactive	, Unit 3 started	
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	types of operator and expressions	1	1	Interactive	Interactive	, Unit 3 started	
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	Input and Output functions in C (print(), scanf(), getchar())	1	1	Interactive	Interactive	, Unit 3 started	
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	putchar(), gets(), puts()	1	1	Interactive	Interactive	, Unit 3 started	

Month	Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Taken	Links	Remarks
August	Understand the basic concept of C programming language.	UNIT3 INTRODUCTION TO C PROGRAMMING	Storage class specifiers Header files(stdio.h,math,j,conop.j)	1	2	Interactive	Interactive	, Unit 3 started	
August	Understand the basic concept of C programming language.	UNIT3 Structure of C program	Program structure	-2	1	Audio Visual	Interactive	, Unit 3 started	
September	Exercise user defined functions to solve real time problems.	UNIT4 : C – DECISION / LOOP STATEMENTS	Decision Statement – if-else statement, break, continue, goto, switch() case and nested if statement. Loop control statements – for(), while(), do-while loop() and nested loops	5	1	Participative	Interactive	, Unit 4 started	
September	Exercise user defined functions to solve real time problems.	UNIT4 Decision Statement – if-else statement	if -else,while ,do	4	10	Interactive	Interactive	, 4, unit 4, 4	
October	Exercise user defined functions to solve real time problems.	UNIT4 Decision Statement – if-else statement	if -else,while ,do	4	4	Interactive	Interactive	, 4, unit 4, 4

ATTAINMENT OF TEACHING PLAN [THEORY] FOR ACADEMIC YEAR: 2023-24

Report of FIRST YEAR BACHELOR OF COMMERCE-A for Semester 2 Of Business Economics-II

Lecture Planned: 42 Lecture Taken: 33 Attainment % : 78

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
Explain the various terms used in market structure: perfect competition and monopoly	Module 1 Market Structure: Perfect Competition and Monopoly	Perfect Competition: Meaning and Features, Monopoly: Meaning and Features, Perfect competition and Monopoly models as two extreme cases	5 [December]	0 [January]	Audio Visual	Interactive	, Monopoly diagram , Revision, Perfect competition , Perfect competition equilibrium	
Explain the various terms used in market structure: perfect competition and monopoly	Module 1 Market Structure: Perfect Competition and Monopoly	Perfect Competition: Meaning and Features, Monopoly: Meaning and Features, Perfect competition and Monopoly models as two extreme cases	5 [January]	3 [January]	Audio Visual	InteractiveParticipative	, Diagram of monopoly, Monopoly answer , Monopoly equi, Revision, Long run equilibrium , Monopoly, Monopoly features, Perfect competition , Perfect competition equilibrium	
Explain the various terms used in market structure: monopolistic competition and oligopoly	Module 2 Pricing and Output Decisions under Imperfect Competition	Competitive and Monopolistic elements of monopolistic competition, Equilibrium of firm under monopolistic competition, Monopolistic verses perfect competition, Excess capacity and inefficiency,	5 [January]	2 [January]	Audio Visual	Audio VisualInteractiveParticipative	, Monopolistic competition , Monopolistic competition features	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
Explain the various terms used in market structure: monopolistic competition and oligopoly	Module 2 Pricing and Output Decisions under Imperfect Competition	Debate over role of advertising, (topics to be taught using case studies from real life examples), Key attributes of oligopoly: Collusive and non-collusive oligopoly market, Price rigidity, Cartels and price leadership models(with practical examples)	2 [January]	0 [January]	Participative	Interactive	, Oligopoly	
Explain the various terms used in market structure: monopolistic competition and oligopoly	Module 2 Pricing and Output Decisions under Imperfect Competition	Debate over role of advertising, (topics to be taught using case studies from real life examples), Key attributes of oligopoly: Collusive and non-collusive oligopoly market, Price rigidity, Cartels and price leadership models(with practical examples)	5 [February]	4 [January]	Participative	InteractiveParticipative	, Cartel , Cartel diagram, Oligopoly, Revision	
Evaluate different pricing practices that firms use	Module 3 Pricing Practices	Cost –plus (full cost)/mark-up pricing, Marginal cost pricing, Mark up pricing, Discriminating pricing, Multiple – product pricing, Transfer pricing	5 [February]	4 [January]	Interactive	Participative	, Full cost pricing, Marginal cost pricing , Price discrimination, Revision	
Explain the various terms used in market structure: perfect competition and monopoly	Module 1 Market Structure: Perfect Competition and Monopoly	Perfect Competition: Meaning and Features, Monopoly: Meaning and Features, Perfect competition and Monopoly models as two extreme cases	5 [December]	0 [February]	Audio Visual	Participative	, Monopoly diagram , Revision, Perfect competition , Perfect competition equilibrium	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
Explain the various terms used in market structure: perfect competition and monopoly	Module 1 Market Structure: Perfect Competition and Monopoly	Perfect Competition: Meaning and Features, Monopoly: Meaning and Features, Perfect competition and Monopoly models as two extreme cases	5 [January]	2 [February]	Audio Visual	Participative	, Diagram of monopoly, Monopoly answer , Monopoly equi, Revision, Long run equilibrium , Monopoly, Monopoly features, Perfect competition , Perfect competition equilibrium	
Evaluate different pricing practices that firms use	Module 3 Pricing Practices	Cost –plus (full cost)/mark-up pricing, Marginal cost pricing, Mark up pricing, Discriminating pricing, Multiple – product pricing, Transfer pricing	5 [March]	2 [February]	Interactive	Audio VisualParticipative	, Dumping, Multiple product and transfer	
Apply the concepts to real life cases for better understanding	Module 4 Apply the concepts to real life cases for better understanding	Meaning and importance of capital budgeting, Steps in capital budgeting, Techniques of Investment appraisal: payback period method, Net present value method	5 [March]	2 [February]	Interactive	Participative	, Capital budgeting , Pay back period	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
Apply the concepts to real life cases for better understanding	Module 4 Apply the concepts to real life cases for better understanding	Meaning and importance of capital budgeting, Steps in capital budgeting, Techniques of Investment appraisal: payback period method, Net present value method	5 [April]	3 [February]	Interactive	InteractiveParticipative	, Capital budgeting, revision of module 4, Revision

ATTAINMENT OF TEACHING PLAN [THEORY] FOR ACADEMIC YEAR: 2023-24

Report of FIRST YEAR BACHELOR OF COMMERCE-B for Semester 2 Of Mathematical and Statistical Techniques-II

Lecture Planned: 68 Lecture Taken: 58 Attainment % : 85

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
CO2:To define the concept of interest, distinguish between Simple and Compound Interest, Present and Future Value and apply it to find Amortisation table .	UNIT II:Interest and Annuity Interest	Simple Interest, Compound Interest (Nominal& Effective Rate of Interest), Calculations involving upto 4 time periods.	7 [March]	5 [January]	Interactive	Interactive	, Compound interest, Interest, Present and Future Value, Revision	
CO2:To define the concept of interest, distinguish between Simple and Compound Interest, Present and Future Value and apply it to find Amortisation table .	UNIT II:Interest and Annuity Annuity	Annuity Immediate and its Present value, Future value. Equated Monthly Installments (EMI) using reducing balance method and amortization of loans. Stated Annual Rate and Affective Annual Rate Perpetuity and its present value. Simple problems involving up to 4 time periods.	8 [March]	3 [January]	Interactive	Interactive	, Annuity, Annuity	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
CO3: To understand ,interpret and analyse the strength of linear relation between bivariate data and the prediction of unknown data using a known data	UNIT III:Bivariate Linear Correlation and Regression analysis	Meaning, Concept of Regression equations, Slope of the Regression Line and its interpretation. Regression Coefficients (excluding Bivariate Frequency Distribution Table), Relationship between Coefficient of Correlation and Regression Coefficients , Finding the equations of Regression lines by method of Least Squares.	5 [January]	5 [January]	Interactive	Interactive	, Regression lines, Revision	
CO1: To understand,identify and apply the concept of rate of change in economics and business	UNIT I:Functions, Derivatives and Their Applications Functions	Concept of real functions: Constant function, linear function, x^n , e^x , a^x , $\log x$. Demand, Supply, Total Revenue, Average Revenue, Total cost, Average cost and Profit function. Equilibrium Point, Break-even point.	5 [January]	6 [February]	Interactive	Interactive	, Functions, Revision	
CO1: To understand,identify and apply the concept of rate of change in economics and business	UNIT I:Functions, Derivatives and Their Applications Derivatives of functions	Derivative of functions:Derivative as rate measure, Derivative of x^n , e^x , a^x , $\log x$.Rules of derivatives: Scalar multiplication, sum, difference, product, quotient,(Statements only), Simple problems. Second order derivatives.	6 [January]	3 [February]	Interactive	Interactive	, Derivative of Functions, Derivatives	
CO2:To define the concept of interest, distinguish between Simple and Compound Interest, Present and Future Value and apply it to find Amortisation table .	UNIT II:Interest and Annuity Annuity	Annuity Immediate and its Present value, Future value. Equated Monthly Installments (EMI) using reducing balance method and amortization of loans. Stated Annual Rate and Affective Annual Rate Perpetuity and its present value. Simple problems involving up to 4 time periods.	8 [March]	7 [February]	Interactive	Interactive	, Annuity, Annuity	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
CO4: To be able to define, describe and calculate trend lines and trend values by using various time series methods and index numbers.	UNIT IV: Time series and Index Numbers	Concept and usage of Index numbers, Types of Index numbers, Aggregate and Relative Index Numbers, Lasperye's, Paasche's, Dorbisch-Bowley's, Marshall-Edgeworth and Fisher's ideal index numbers, Test of Consistency: Time Reversal Test and Factor Reversal Test. Chain Base Index Nos. Shifting of Base year. Cost of Living Index Numbers, Concept of Real Income, Concept of Wholesale Price Index Number. (Examples on missing values should not be taken)	7 [February]	7 [February]	Interactive	Interactive	, Index number, Revision	
CO1: To understand, identify and apply the concept of rate of change in economics and business	UNIT I: Functions, Derivatives and Their Applications	Concept of real functions: Constant function, linear function, x^n , e^x , $\log x$. Demand, Supply, Total Revenue, Average Revenue, Total cost, Average cost and Profit function. Equilibrium Point, Break-even point.	5 [January]	1 [March]	Interactive	Interactive	, Functions, Revision	
CO1: To understand, identify and apply the concept of rate of change in economics and business	UNIT I: Functions, Derivatives and Their Applications	Applications: Marginal Cost, Marginal Revenue, Elasticity of Demand. Maxima and Minima for functions in Economics and Commerce.	4 [January]	2 [March]	Interactive	Interactive	, Applications of Derivatives	
CO2: To define the concept of interest, distinguish between Simple and Compound Interest, Present and Future Value and apply it to find Amortisation table.	UNIT II: Interest and Annuity	Simple Interest, Compound Interest (Nominal & Effective Rate of Interest), Calculations involving upto 4 time periods.	7 [March]	1 [March]	Interactive	Interactive	, Compound interest, Interest, Present and Future Value, Revision	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
CO3: To understand ,interpret and analyse the strength of linear relation between bivariate data and the prediction of unknown data using a known data	UNIT III:Bivariate Linear Correlation and Regression analysis	Meaning, Concept of Regression equations, Slope of the Regression Line and its interpretation. Regression Coefficients (excluding Bivariate Frequency Distribution Table), Relationship between Coefficient of Correlation and Regression Coefficients , Finding the equations of Regression lines by method of Least Squares.	5 [January]	2 [March]	Interactive	Interactive	, Regression lines, Revision	
CO4:To be able to define,describe and calculate trend lines and trend values by using various time series methods and index numebers.	UNIT IV:Time series and Index Numbers Time series	Concepts and components of a time series. Representation of trend by Freehand Curve Method, Estimation of Trend using Moving Average Method and Least Squares Method (Linear Trend only). Estimation of Seasonal Component using Simple Arithmetic Mean for Additive Model only (For Trend free data only). Concept of Forecasting using Least Squares Method.	8 [February]	3 [March]	Interactive	Interactive	, Revision, Time series	
CO4:To be able to define,describe and calculate trend lines and trend values by using various time series methods and index numebers.	UNIT IV:Time series and Index Numbers Index Numbers	Concept and usage of Index numbers, Types of Index numbers, Aggregate and Relative Index Numbers, Lasperye's, Paasche's, Dorbisch-Bowley's, Marshall-Edgeworth and Fisher's ideal index numbers, Test of Consistency: Time Reversal Test and Factor Reversal Test. Chain Base Index Nos. Shifting of Base year. Cost of Living Index Numbers, Concept of Real Income, Concept of Wholesale Price Index Number. (Examples on missing values should not be taken)	7 [February]	1 [March]	Interactive	Interactive	, Index number, Revision	
CO5:To define and recognize different types of probability distribution and its application.	UNIT V:Elementary Probability Distributions Probability Distribution	Discrete Probability Distribution: Binomial, Poisson ,Continuous Probability distribution: Normal Distribution.	15 [March]	4 [March]	Interactive	Interactive	, Probability	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
CO3: To understand ,interpret and analyse the strength of linear relation between bivariate data and the prediction of unknown data using a known data	UNIT III:Bivariate Linear Correlation and Regression Correlation	Meaning, Types of Correlation,Determination of Correlation: Scatter diagram, Karl Pearsons method of Correlation Coefficient (excluding Bivariate Frequency Distribution Table) and Spearmans Rank Correlation Coefficient.	3 [December]	8 [December]	Interactive	Interactive	Karl pearsons correlation coefficient, Spearmans rank correlation

ATTAINMENT OF TEACHING PLAN [THEORY] FOR ACADEMIC YEAR: 2023-24

Report of FIRST YEAR BACHELOR OF COMMERCE-A for Semester 2 Of Environmental Studies-II

Lecture Planned: 60 Lecture Taken: 50 Attainment % : 83

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars/Remarks
Learn basic concepts of solid waste management, beginning from source generation to waste disposal in a system of municipality organizational structure.	Solid waste management for sustainable society	solid waste management in mumbai, schemes and initiatives run by MCGM, Role of citizens in waste management in urban and rural areas	6 [January]	1 [January]	Audio Visual	Audio Visual	, na, nil, na
Students will understand the environmental problems associated with the agriculture and industrial sectors.	Agriculture and Industrial Development Associated with Agriculture	Loss of productivity, land degradation, desertification, uneven food production, hunger, malnutrition and food security, sustainable agricultural practices	7 [January]	5 [January]	Audio Visual	Audio Visual	, nil
Students will understand the environmental problems associated with the agriculture and industrial sectors.	Agriculture and Industrial Development Environmental problems associated with industries	Pollution, global warming, ozone layer depletion, acid rain, sustainable industrial practices, green businesses and green consumerism corporate social responsibility toward environment	6 [February]	7 [January]	Audio Visual	Audio Visual	, NA, nil
Students will learn the impact of tourism on environmental quality and will know the measures to cope with the problem.	Tourism and environment Tourism	Tourism- meaning, nature, scope and importance, typology of tourism, classification, tourism potentialities in India and challenges before India, new tourism policy of India	7 [February]	2 [January]	Audio Visual	Audio Visual	, na, na

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
Students will learn the impact of tourism on environmental quality and will know the measures to cope with the problem.	Tourism and environment Tourism	Tourism- meaning, nature, scope and importance, typology of tourism, classification, tourism potentialities in India and challenges before India, new tourism policy of India	7 [February]	2 [February]	Audio Visual	Audio Visual	, na, na	
Students will learn the impact of tourism on environmental quality and will know the measures to cope with the problem.	Tourism and environment Consequences of Tourism	Positive and negative impacts on economy, culture and environment- ecotourism	6 [March]	3 [February]	Audio Visual	Audio Visual	, na	
Importance of environmental movement in the protection of environment and maintaining its quality will be understood by the students	Environmental Movements and Managemnet Environmental Movements in India, Environmental management	Save Narmada Movement, Chipko Movement, Appiko Movement, Save Western Ghat Movement, Concept, need and relevance, ISO 14000 and 16000	7 [March]	2 [February]	Audio Visual	Audio Visual	, na	
Importance of environmental movement in the protection of environment and maintaining its quality will be understood by the students	Environmental Movements and Managemnet Concept of carbon bank ,EPA, of carbon bank ,EPA,	Concept of carbon bank and carbon credit, EIA, Ecological foot print, EPA, Concept of components of geospatial technology, Applications of GIS in Environmental Managemnet	6 [April]	6 [February]	Audio Visual	Audio Visual	, na	
Students will get acquainted with the locations of environmentally significant features.	Map filling Map filling of Konkan	Map filling of Konkan	4 [April]	4 [February]	Experiential	Audio Visual	, na, na	
Students will get acquainted with the locations of environmentally significant features.	Map filling Map filling of Konkan	Map filling of Konkan	4 [April]	3 [March]	Experiential	Audio Visual	, na, na	

Course Outcome	Topic	Sub-Topic	Lecture Planned	Lecture Taken	Methodology Planned	Methodology Used	Particulars	Remarks
Students will get acquainted with the locations of environmentally significant features.	Map filling of Mumbai	Map filling of Mumbai	4 [April]	7 [March]	Experiential	Audio Visual	, na	
Learn basic concepts of solid waste management, beginning from source generation to waste disposal in a system of municipality organizational structure.	Solid waste management for sustainable society Classification of solid waste	Types and sources of solid waste, effects of solid waste pollution, health hazards, environmental impacts	7 [December]	7 [December]	Audio Visual	Audio Visual	, na
