Name of the Event: Skit Play on "New Voter's Registration."

Organizing Agency: NSS Unit, The S.I.A College of Higher Education.

Date: 27th September 2023

Time: 08.15 A.M – 11.55 A.M.

Venue: The S.I.A College of Higher Education, Classroom.

Purpose of the Activity: Voters registration is the process of registering eligible citizens to vote in elections. This process varies from country to country, but typically involves providing proof of identity and residence. Voter registration helps ensure that elections are fair and democratic, as it allows for accurate voter rolls and prevents fraud. Registration is required before a citizen can vote, while in other countries it is automatic. Voter registration deadlines are often set prior to an election, so citizens should register as soon as possible to ensure they can cast their vote.

Outcome: NSS unit organised a New Voter Awareness Drive -"Vote Your Right!", on 27 September, 2023 to sensitise the masses about the importance of participating in the electoral process in a democratic nation and help them cast an 'enlightened vote' by electing the right candidate, knowing various parameters. Volunteers enthusiastically had helped in spreading awareness through skit play among the students of the college based on Theme "New Voter's Registration", wherein the story revolves around young boy and his family, who tries to educate the boy about New Voter's Registration process and its importance. Volunteers also made the students understand how even 1 vote can change the future of our country.

Name of the Committee: National Service Scheme

Name of the Event: Documentary Screening on New Voters Registration

Organizing Agency: NSS Unit, The S.I.A College of Higher Education

Date: 27th September 2023

Time: 08:15 A.M to 11:55 A.M.

Venue: The S.I.A College of Higher Education, Classroom

Purpose of the Activity: Voters registration is the process of registering eligible citizens to vote in elections. This process varies from country to country, but typically involves providing proof of identity and residence. Voter registration helps ensure that elections are fair and democratic, as it allows for accurate voter rolls and prevents fraud. Registration is required before a citizen can vote, while in other countries it is automatic. Voter registration deadlines are often set prior to an election, so citizens should register as soon as possible to ensure they can cast their vote.

Outcome: NSS unit organised a New Voter Awareness Drive -"Vote Your Right!", on 27 September, 2023 to sensitise the masses about the importance of participating in the electoral process in a democratic nation and help them cast an 'enlightened vote' by electing the right candidate, knowing various parameters. It is vital that citizens make use of the power and right to vote to choose a leader who will represent them and their ideas; and contribute their part in shaping the government. Volunteers enthusiastically had helped in spreading awareness through documentary screening among the students of the college about the importance of the right to vote using Voter ID cards to eligible people in their locality. Volunteers also made the students understand how even 1 vote can change the future of our country.
