To

Dr. Harish Shetty,

Sub: Letter of thanks for delivering a session on
"Connectivity Connectedness".

Dear Sir,

We would like to express our gratitude on behalf of The S.I.A College of Higher Education for conducting a session on "Connectivity & Connectedness" to our SIA Higher Education, Jr. College and Degree College teachers.

Your expertise and insights were invaluable to our teaching community.

Thank you again for your time and dedication. We are grateful to have had you as a resource person for our session.

Warm Regards,

Dr. Padmaja Arvind

Report of Dr Harish Shetty session

Topic: Connectivity and connectedness

Date: 31st August 2023

Venue: Auditorium

Key Highlights of the session:

The Internal Quality Assurance Cell of the college had organized a session titled “Connectivity and Connectedness”. The Session was facilitated by Dr Harish Shetty, Psychiatrist, and was attended by the faculty members of degree college, junior college and high school. The session was quite interactive and the resource person adopted tools like role play, situation analysis etc. in order to drive through the concepts. The session began with discussion on meaning of connectedness and connectivity using several examples. He focused on what was lacking in the teaching learning process and how the sessions can be made interesting by adopting story telling methods. Also, hands on practice were given for story telling for different subjects and what can be included in stories and what should be avoided was discussed in detail. In addition, understanding of work life balance and how do we balance the same was discussed. Also, understanding different emotions, being aware of our thoughts would help us understand and cope with feelings and can help in building relationships. He also advised on the need for adequate sleep and lack of sleep and its impact on student's behaviour such as restlessness, aggression, frustration etc. He suggested a sleep campaign and a campaign on mobile management can be initiated in the campus. The session ended with Q&A.

Sir has suggested to collect questions from the faculty members on various issues and the same would be addressed by him via a zoom meeting

Reaccredited B+ by NAAC (May 2022)
P-88, MIDC Residential Area Dombivli Gymkhana Road,
Near Balaji Mandir, Dombivli (East), 421203.

Report

Date : 4th August 2023

The Faculty Development Program on Python, Machine Learning, Artificial Intelligence, ChatGPT and Agile Labs was conducted during the 22nd June to 31st July 2023.

It was comprised of 50 hours for training and 3 hours for examination.

Total 15 faculty members registered for this FDP.

The training was provided by various specialize faculty members of Smart Steps Solutions Pvt Ltd, Chennai.

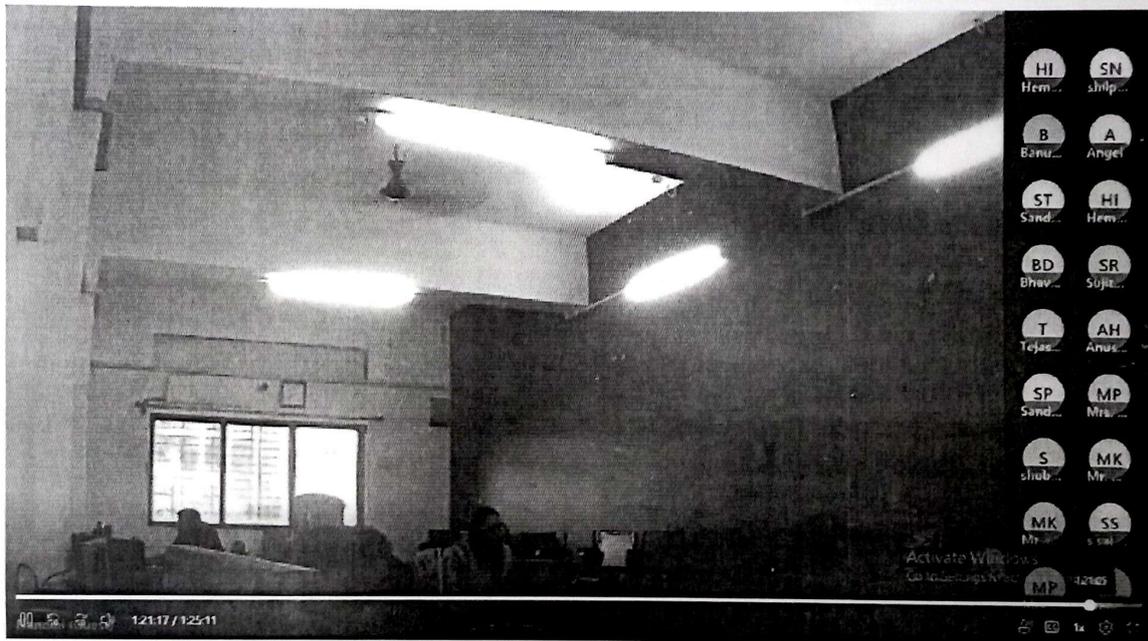

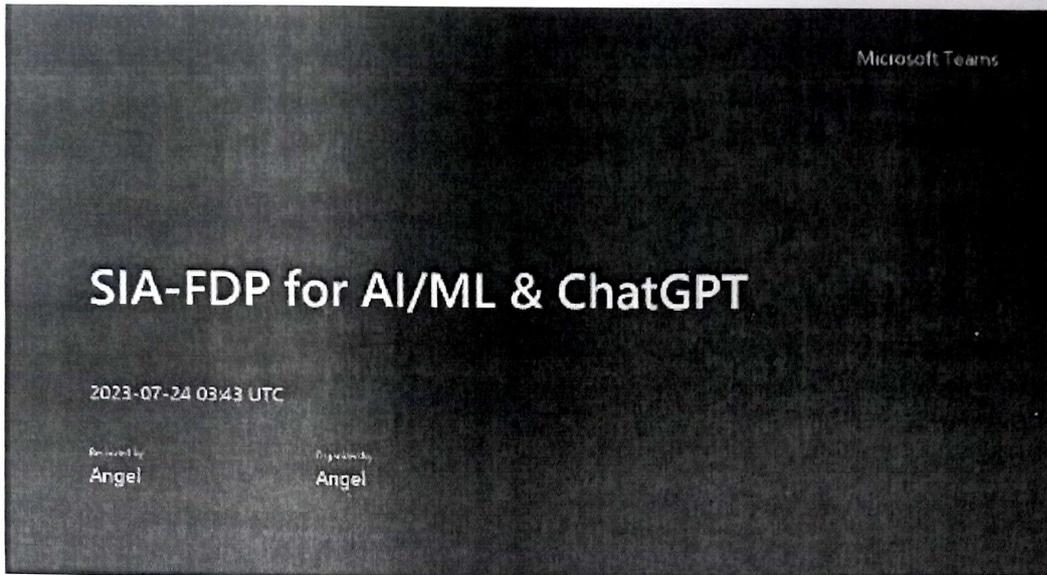

They provided unique credentials (15 licenses) to all the registered uses to use the digital lab.

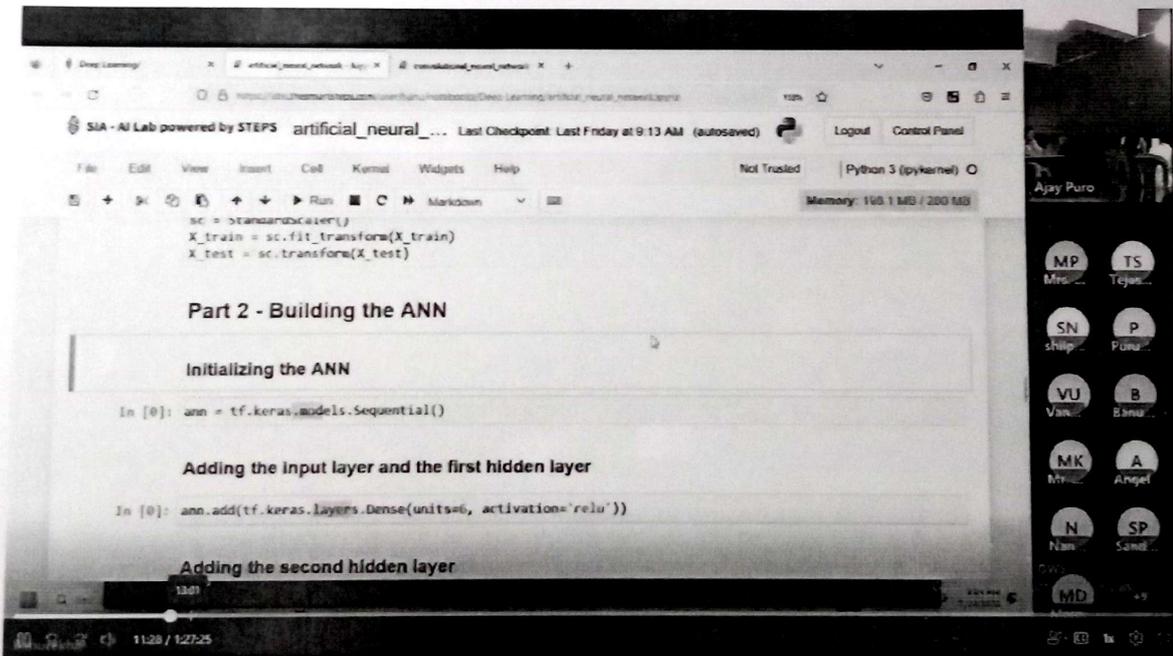

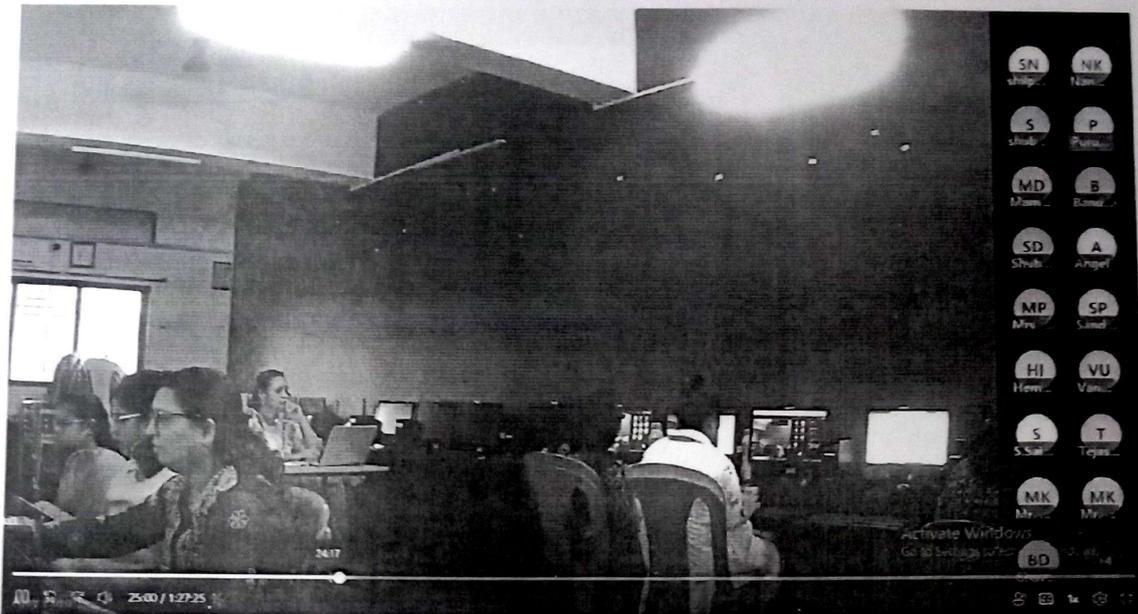

At the end of the course the evaluation process took place in the form of projects.

The candidates did the projects in group such as Breast cancer detection, Image Classification, Heart disease diagnosis, Car price detection etc.

ML SCANN

Linear Regression is a straightforward, interpretable model suitable for problems with linear relationships, limited data, and low computational resources.

ANNs, particularly deep learning models, are more powerful, capable of handling complex and non-linear patterns in data but require more data and computational resources.

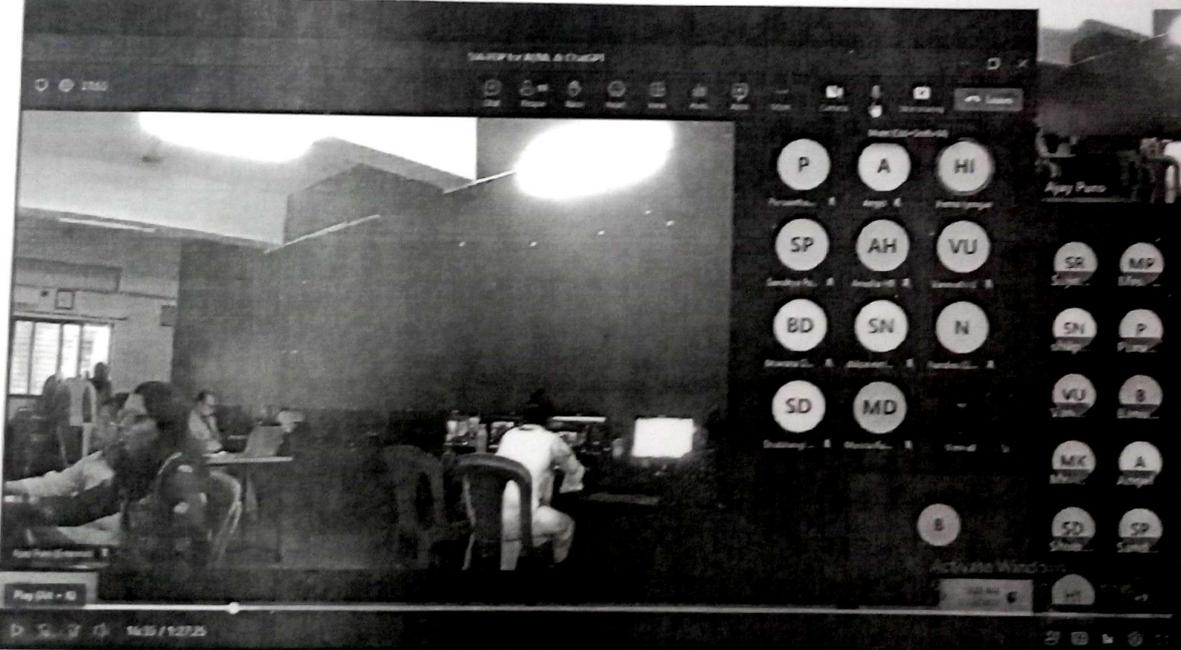

The choice between the two depends on the nature of the data, the complexity of the problem, and the trade-off between model interpretability and performance
