Sub: Project Proposal for the automation of examination process

Dear Mam

I, S. Sai Sree, working as an Assistant Professor in the Department of Information Technology and Mathematics would like to propose a development of software. It has been observed that the examination result processing can be automized and all the reports in accordance with the policies and guidelines of University can be generated. I request you to give me an opportunity to develop the software for the benefit of the college. I would like to involve Mr. Sunil Gaonkar from office in the development of the software.

Thanking you

Regards

S. Sai Sree

The S.I.A. College of Higher Education

Dombivli East 421201

Sub : Designing website for The S.I.A. College of Higher Education

Respected Madam,

We S.I.A. Techlink want to develop a website for The S.I.A. College of Higher Education as the current website didn't prove to be substantial enough as it is created in JOOMLA also it doesn't provide easy formatting options as it is static in nature.

The site which we want to develop will take care of user friendly environment, proper content management, database management and dynamic nature as well as latest technology.

To develop such website, we need 1 computer to be allocated in S.I.A. Techlink (Incubation Center) with P4 processor and 2 GB RAM with XAMPP software installed in it comprising PHP6 and MySQL.

We would like to appoint Mr. Krishnan Ramaswami (Rollno IF15035) as a web developer and Mrs. Sandhya Pandey and Mrs. Nandini Kadam as a project Guide for this project.

Awaiting for the positive Response.

Thanking you

Respected Madam,

Under the incubation center SIA TechLink of our college, as per the discussion with the Dean of Physiotherapy College and Dr.Mukti Shirodkar, there is a requirement for making the OPD Digital.

After carefully evaluating the requirements, we would like to propose online project OPD for the The SIA Physiotherapy College

The project will focus on developing the following:

1. OPD is a solution developed for helping doctors to manage patient records

2. In the application the Doctor selects the affected body part and then records the patient's complaints

3. In the similar way he records his Pain, Past and Personal History and a report is generated

4. This Application reduces the old process of paper work and also eases out the process of managing patient records

5. All the recorded data is safe and is digitally stored and always available

Hardware requirements:

Processor:Intel® Core™ i5-6400CPU, RAM:8GB, System type: 64bit OS

Technology used :

Front End: JSP and Servlet,AJAX and JDK 8.0 Back End: MYSQL

Web Page Design: HTML, JavaScript,CSS

Web Server: Apache Tomcat Web Server

List of the students who will be working on this project:

SY BSc IT :

1. Darshan Naik (Alumni)
2. Sameer Bidi(TYBSC IT)
3. Sarvesh Gandhare(SYBSC IT)

Looking forward with anticipation for your kind approval.

Thanking you

S.I.A. Techlink (Incubation Center)

Sandhya

Project- Incharge.

THE S.I.A COLLEGE OF HIGHER EDUCATION DOMBIVLI

SIA
SIA TechLink
(IT Development Division)
The S.I.A. College of Higher Education, Dombivli (E)

Project Name	**OPD - Phase 1**
Guide Name	K.V Ranganathan, Vignesh Iyer, Sandhya Thakkar
Background	The purpose of this project is to computerize the Front Office Management of OPD to develop software that is user-friendly, simple, fast, and cost-effective. It deals with the collection of patient's information, diagnosis details, etc. Traditionally, it was done manually. The main function of the system is to register and store patient details and doctor details and retrieve these details as and when required
Objectives	• Previously doctors used to collect patient records handwritten on paper. • It was difficult to manage such patient records and the patients were keeping on increasing day by day. • So, an online solution was needed in order to manage such huge data and to be accessible from anywhere.
Scope of Work	1. Authenticate users at their login. 2. Provide a list of patients. 3. Provide a list of reports. 4. Easily manage incomplete and pending reports. 6. Facility to edit, delete and view previous reports.
Key Stake Holders	
Client	Dr. Mukti Dake, Clinical Therapist, The S.I.A.College of Higher Education,Dombivli(East)

Respected Madam,

Under the incubation center SIA TechLink of our college, as per the discussion with the Librarian Ashwini Rajeshirke Madam, there is a requirement for making the Library Digital.

After carefully evaluating the requirements, we would like to propose online project SIA- Athenaeum for the The SIA Physiotherapy College

The project will focus on developing the following:

a) To build a system that can receive input and generate automatically output in easy way and short time.

b) To build a monitoring system that is able to monitor and manage all library operations efficiently.

c) Give an opportunity to librarians to reduce mistakes that always happen during manual method.

d) To store properly the library items in order to maintain their security.

e) To enter and preserve details of the various issues and keep a track on their returns.

Hardware requirements:

Processor:Intel® Core™ i5-6400CPU, RAM:8GB, System type: 64bit OS

Technology used :

Front End: JSP and Servlet,AJAX and JDK 8.0 Back End: MYSQL

Web Page Design: HTML, JavaScript,CSS

Web Server: Apache Tomcat Web Server

List of the students who will be working on this project:

SY BSc IT :

1. Abhishek Mankar :IF16026
2. Samar Singh:IF16056
3. Utkarsh Kamble:IF16020

Looking forward with anticipation for your kind approval.

Thanking you

S.I.A. Techlink (Incubation Center)
(Sandhya Thakkar)

SIA TechLink
(IT Development Division)
The S.I.A. College of Higher Education, Dombivli (E)

Project Name	**SIA-Atheneum Phase 1**
Project Guidance	K.V.Ranganathan, Vignesh Iyer
Project Manager	Sandhya Kapil Thakkar
Background	The web application manages and stores books information electronically according to students need. The system helps both students and library manager to keep a constant track of all the books available in the library
Objectives	a)To build a system that can receive input and generate automatically output in easy way and short time. b) To build a monitoring system that is able to monitor and manage all library operations efficiently. c) Give an opportunity to librarians to reduce mistakes that always happen during manual method. d) To store properly the library items in order to maintain their security. e) To enter and preserve details of the various issues and keep a track on their returns.
Scope of Work	1. Create distinct product users based on their roles and permissions. 2. Authenticate users at their login. 3. Provide the list of books the users can borrow. 4. Facility to reserve books that are available. 5. A status page for all users to view books reserved by them. 6. Facility to cancel the reservation for a book made earlier. 7. A status page for all users to view books borrowed by them, their individual due dates and their individual penalties if any. 8. An interface to view and edit the own profile. 9. Provide method for adjusting account settings such as passwords. 10. Mechanism to reset the password in case user forgets it. 11. Providing interface for teaching and non-teaching staffs.

Dated: 1/10/2019

To

The Principal

The S.I.A. College of Higher Education

Sub: Request for developing E-sanchalan pre exam Software

Dear Mam,

I, Mr.Sunil Gaonkar, working in The S.I.A College of Higher Education propose to you about the idea for developing software E-sanchalan pre exam Software

- To generate time table and seat numbers for examination
- To issue hall tickets
- To make block arrangements
- To allocate super visor duties uniformly to all faculty members
- To calculate the remuneration for supervision
- To maintain the data of paper setters and to calculate remuneration
- To generate reports required by the cluster.

Thanking you

Regards

THE S.I.A. COLLEGE OF HIGHER EDUCATION DOMBIVLI

Project Name	E-Sanchalan Pre Exam Automation
Guide Name	Mr. Sunil Gaonkar
Background	There was a glitch in the block arrangements and allocation of supervisors for the smooth conduction of examination. Since the maintaining the data of paper setters and supervisors was very difficult manually, this entire process is automized.
Objectives	To generate time table and seat nos for examination To issue hall tickets To make block arrangements To allocate super visor duties uniformly to all faculty members To calculate the renumeration for supervision To maintain the data of paper setters and to calculate renumeration To generate reports required by the cluster.
Scope of Work	To computerize all the activites to be performed before and after conduction of examination.

Key Stake Holders

Client	The S.I.A. College of Higher Education
Project Manager	Mr. Sunil Gaonkar

TimeFrame

Modules	Description of Work	Start Date	End Date	No. of Days
Pre-Exam Activities	Time table for the open exams are inserted. Paper setter information are updated Students for the open exams are imported. Seat nos are generated. Day wise block arragement is done Block wise supervisors are allocated	03-10-2019	31-10-2019	28
Pre-Exam Reports	Time table report Hall ticket report Block arragement report(Summary & Detail) Super visor report	21-11-2019	15-12-2019	24

Post Exam Activities	Students attendance for examination is inserted Subject wise blank marksheet is generated. Exam Renumeration process is executed . After approval by the faculties in their respective login, the request is sent for payment.	16-12-2019	10-01-2020	25
Post Exam Reports	Faculty Renumeration (detail & Summary) Examination Committee Renumeration Report	12-01-2020	15-02-2020	34

Respected Madam,

Under the incubation center SIA TechLink of our college, as per the discussion with the Librarian Bharathi Rao Madam, there is a requirement for making the Library Digital.

After carefully evaluating the requirements, we would like to propose online project SIA-Granthalaya.

The project will focus on developing the following:

a) To build a system that can receive input and generate automatically output in easy way and short time.

b) To build a monitoring system that is able to monitor and manage all library operations efficiently.

c) Give an opportunity to librarians to reduce mistakes that always happen during manual method.

d) To store properly the library items in order to maintain their security.

e) To enter and preserve details of the various issues and keep a track on their returns.

Hardware requirements:

Processor:Intel® Core™ i5-6400CPU, RAM:8GB, System type: 64bit OS

Technology used :

Front End: JSP and Servlet,AJAX and JDK 8.0 Back End: MYSQL

Web Page Design: HTML, JavaScript,CSS

Web Server: Apache Tomcat Web Server

List of the students who will be working on this project:

SY BSc IT :

1. Bhavesh Narang :IF16034
2. Darshan Naik:IF16032

Looking forward with anticipation for your kind approval.

Thanking you

S.I.A. Techlink (Incubation Center)
(Sandhya Thalelar)

SIA
SIA TechLink
(IT Development Division)
The S.I.A. College of Higher Education, Dombivli (E)

Project Name	**SIA-Granthalaya - Phase 1 (Integrated Library Management System)**
Project Guidance	K.V.Ranganathan, Vignesh Iyer
Project Manager	Sandhya Kapil Thakkar
Background	The web application manages and stores books information electronically according to students need. The system helps both students and library manager to keep a constant track of all the books available in the library
Objectives	a)To build a system that can receive input and generate automatically output in easy way and short time. b) To build a monitoring system that is able to monitor and manage all library operations efficiently. c) Give an opportunity to librarians to reduce mistakes that always happen during manual method. d) To store properly the library items in order to maintain their security. e) To enter and preserve details of the various issues and keep a track on their returns.
Scope of Work	1. Create distinct product users based on their roles and permissions. 2. Authenticate users at their login. 3. Provide the list of books the users can borrow. 4. Facility to reserve books that are available. 5. A status page for all users to view books reserved by them. 6. Facility to cancel the reservation for a book made earlier. 7. A status page for all users to view books borrowed by them, their individual due dates and their individual penalties if any. 8. An interface to view and edit the own profile. 9. Provide method for adjusting account settings such as passwords. 10. Mechanism to reset the password in case user forgets it. 11. Providing interface for teaching and non-teaching staffs.

Key Stake Holders

Client	Mrs.Bharathi Rao, Head Librarian, The S.I.A.College of Higher Education,Dombivli(East)
Project Manager	K.V.Ranganathan, Vignesh Iyer

To,

S.I.A. Techlink (Incubation Center)

The S.I.A. College of Higher Education

Dombivli East 421201

Sub : Website Development for The BALAJI TEMPLE DOMBVLI EAST

Respected Madam,

We S.I.A. Techlink want to develop a website for The BALAJI TEMPLE DOMBVLI EAST to provide automation for Administrative work of the temple.

The site which we want to develop will take care of user friendly environment, proper content management, database management and dynamic nature as well as it will be always updated by recent events that will get organized by temple such as Pooja, Prasadam, donation.

To develop such website, we need 1 computer to be allocated in S.I.A. Techlink (Incubation Center) with P4 processor and 2 GB RAM with installation of softwares Visual Studio 15 and SQL Server 2008.

We would like to appoint Mr. Chaitanya Kulkarni (Rollno IF18014) as a web developer and Mrs. Rashmi Chindarkar as a project Guide for this project.

Awaiting for the positive Response.

Thanking you

S.I.A. Techlink (Incubation Center)

Placement Cell - Industry Academia Interface

Report : Advertising, Media & Opportunities

Date: July 15, 2017. A career guidance lecture on 'Advertising, Media & Opportunities' was organised by the IAI, Placement cell and Buoyancy Club of the Department of Management Studies on July 15, 2017. The resource person for the session was RJ Pradnya Mirrgal. A total of 133 students attended the session.

The speaker spoke about how smart advertisers are using signals about viewers' intent and context to inform not just who they talk to, but how and when they do so. In a competitive category and cluttered market, the brand and its creative and media agency partners cleverly incorporated signals into the creative itself.

The speaker emphasized that marketers can reach people more frequently than they ever could before. But seeing the same ad over and over again can be grating for viewers, especially now that they're so accustomed to watching entirely on their own terms. One way around that is through a tool called video ad sequencing, which allows marketers to serve up a series of ads in the order they choose, delivering repetition through variation, not redundancy. This is an opportunity for advertisers to tell stories that match how people watch today — and is a uniquely rich canvas to bring media and creative to life in effective ways.

When media and creative are in lockstep, campaign creative can be optimized based on best practices for the platform and even for specific marketing objectives, which ideally ladder up to business objectives. It's no longer enough to have a great media plan and a great creative concept. To anticipate what matters and reach consumers on their terms, advertisers will need to treat their media and creative as one, ensuring they complement one another.

The session ended with an interesting interaction between the speaker & the students.

Report : Brand Management and Career Opportunities in Marketing

Date: March 07, 2018. A career guidance lecture on 'Brand Management and Career opportunities in Marketing' was organised by the IAI, Placement cell and Buoyancy Club of the Department of Management Studies on 7th March, 2018 at 11:00 AM in the auditorium. The resource person for the session was Mr. Avinash Mantri. He has been associated with several organisations in the marketing sector for several years. A total of 43 students attended the session.

Mr. Avinash Mantri, having been closely associated with this field for several years, spoke on brand building and management. Brand management has emerged as an important and critical function of marketing. Business organisations allocate a significant portion of their marketing budget for brand building and development. He explained the importance of branding for a successful marketing strategy. Successful brand management helps a business to retain its customers and increase brand equity.

The speaker, Mr. Avinash Mantri further explained the key responsibilities of a brand manager. A brand manager is accountable for crafting the brand strategy of a company and communicating the brand proposition to the customers. A brand manager needs to be creative and analytical and come up with out of the box solutions. He noted that students who have a creative bent of mind and academic background in management with specialization in marketing, would find this field highly rewarding. He shared his experience with the students. The students found the session which was peppered with examples and anecdotes, highly engaging.

Placement Cell - Industry Academia Interface

Report : Cryptocurrency

Date: March 14, 2018. A session on **"Cryptocurrency'** was organised by the IAI, Placement Cell and Buoyancy Club, Department of Management Studies on Thursday, 14th March, 2018 at 11:00 AM in the auditorium. The resource persons for the session were Mr. Sandesh Shetty and Mr. Girish Deepchandani from Jamnalal Bajaj Institute of Management Studies. A total of 285 students attended the session.

Cryptocurrency which is based on blockchain technology is a digital currency that can be used as a medium of exchange for economic transactions. The speakers noted that, as an emerging technology, it holds a lot of promise. It is one of the most important monetary revolutions to happen in recent times. They explained the origin of cryptocurrency and how it is being increasingly accepted around the world. Blockchain technology can be used for making fast and secure transactions. It is basically a ledger of records that is linked together using cryptography. The speakers emphasised that it is important for management and finance students to learn about cryptocurrency and blockchain as it is fast becoming the accepted technology of the future. They spoke on various types of cryptocurrencies such as Bitcoin and Ethereum. The different concepts and terms associated with cryptocurrency were explained to the students namely, 'Mining,' 'wallets' and 'Timestamping'.

The speakers also cautioned the students that though cryptocurrencies may seem exciting and an adventurous option to invest in, they are riddled with risks such as ambiguous government regulations and high volatility in value. The students found the session highly informative and engaging.

Report : Financial Literacy

Date: March 08, 2018. A session on **"Financial Literacy'** was organised by the IAI, Placement Cell and Buoyancy Club, Department of Management Studies on 8th March, 2018 at 11:00 AM c in the auditorium. The resource persons for the session were Mr. Sandesh Shetty and Mr. Girish Deepchandani from Jamnalal Bajaj Institute of Management Studies. A total of 125 students attended the session.

The speaker started with explaining the term financial literacy which means the possession of the set of skills and knowledge that allows an individual to make informed and effective decisions with all of their financial resources. Raising interest in personal finance is now a focus of state-run programs in countries including Australia, Canada, Japan, the United States, and the United Kingdom. Understanding basic financial concepts allows people to know how to navigate in the financial system. People with appropriate financial literacy training make better financial decisions and manage money better than those without such training.

The speaker explained that managing your money is a personal skill that benefits you throughout your life – and not one that everybody learns. With money coming in and going out, with due dates and finance charges and fees attached to invoices and bills and with the overall responsibility of making the right decisions about major purchases and investments consistently – it's daunting. Managing your own money requires a fundamental understanding of personal credit and a willingness to embrace personal responsibility. That is, you pay your bills in a timely manner and you don't drown yourself in debt.

The speaker also informed the students about National Centre for Financial Education (NCFE), a non-profit company, which was created under section 8 of companies act 2013, to promote financial literacy in India. It is promoted by four major financial regulators Reserve Bank of India, SEBI, IRDA and PFRDA.

NCFE conducted a benchmark survey of financial literacy in 2015 to find the level of financial awareness in India. It organises various programs to improve financial literacy including collaborating with schools and developing new curriculum to include financial management concepts. It also conducts a yearly financial literacy test. The list of topics covered by NCFE in its awareness programs includes investments, types of bank accounts, services offered by banks, Aadhaar card, demat account, pan cards, power of compounding, digital payments, protection against financial frauds etc.

In the end the speaker answered all the queries asked by students.

Report

A talk on: "An overview of Insurance Sector and Employment Opportunities"

23 June, 2018:

A session on An overview of Insurance Sector and Employment Opportunities was conducted by *Mr. Alok Ghosh,who* is Vice President & Head Distribution Governance and Performance Enablement at Reliance Nippon Life Insurance.

He has more than 24 years of Experience in various functions like Sales and Governance, Performance Enablement, Business Development, Project Management, Brand and Product Management, in diverse Industries i.e. Insurance, Dot Com, S/W Industry and Telecom. A total of 104 students from SYBMS and TYBMS attended the session.

The future looks promising for the life insurance industry with several changes in regulatory framework which will lead to further change in the way the industry conducts its business and engages with its customers.

The overall insurance industry is expected to reach US$ 280 billion by the end of 2020. Life insurance industry in the country is expected to increase by 14-15% annually for the next three to five years.

The scope of IoT in Indian insurance market continues to go beyond telematics and customer risk assessment. Currently, there are 110+ InsurTech start-ups operating in India.

Demographic factors such as growing middle class, young insurable population and growing awareness of the need for protection and retirement planning will support the growth of Indian life insurance.

The sector is poised for unprecedented growth in the coming years. Given the insurance training infrastructure in the form of Insurance Institute of India (III) offering various online courses, National Insurance Academy, Pune (NIA), Institute of Insurance and Risk Management (IIRM)and Institute of Actuaries of India (IAI) for specialised courses, several universities offering insurance as a subject of study and various training institutes for training insurance intermediaries; there is enough opportunity for the young to get qualified and employed in the insurance sector. Insurance Regulatory and Development Authority of India (IRDAI), being the regulator of the insurance sector in the country, also provides career opportunities for experienced insurance professionals.

The session ended with a very interesting interaction with students.

Placement Cell - Industry Academia Interface

Report

A talk on: "Financial Literacy"

14th July, 2018: A session on Financial Literacy was conducted by *Ms. Aditi Chapkar, who* is financial counselor at ICICI Foundation.

A total of 217 students from SYBMS and TYBMS attended the session.

Only 24% of the Indian adult population is financially literate. In comparison to other major emerging economies, the financial literacy rate of India is the lowest. This is due to inter-state disparities, lack of formal training and awareness. While other emerging economies have better financial literacy rates, there's still scope for more improvement.

Individuals and young people aren't able to manage their income. There's a disbalance between consumption and savings. Savings and investment are alien concepts for the majority of the population. School curriculum has restricted information and financial education is selectively taught to students who want to pursue a career in the same.

In a population of 1.3 billion, emphasis on financial education will make a long-lasting impact. Government spending on financial education would give them higher returns. Financial literacy is the doorway to effective human capital formation. Financial skills will help to raise the standard of living and contribute to overall growth. Our labour force combined with good financial education would help us in eradicating poverty to some extent. In short, a **financially smart India** would be a **major force** in the world. There's a need for formal training of teachers on financial education. Finances can be explained easily when students are taught about it by

giving real-life examples. Practical knowledge and right targeting of financial education schemes can bridge the gap of financial illiteracy.

The session ended with a very interesting interaction with students.

Placement Cell - Industry Academia Interface

Report

A talk on: "Java: Its use in software development"

14th July, 2018:

A session on Java: Its use in software development was conducted by *Mr. Vignesh Iyer, who* is a technological & product specialist.

A total of 112 students across all streams attended the session.

Experienced in Leading Product development across different phases like Software Development, Implementation, Product Management, Change request management and Product Support (Web and Mobile apps). He is well experienced in Banking & Educational domain.

Java is widely used in software development because of its various unique features and technologies. Java provides us with numerous technologies. Software development is a process which involves computer programming, testing, documentation, and fixing a bug. Therefore java can be used as the programming language for *developing software* as it is the fastest growing language.

Java is preferred in software development because of its features like: Ease, Object orientation, Platform independence, Multi-threaded, robust, high security and many others.

JavaScript is used to develop client-side scripts that run in browsers. Its primary use is for validation and interactivity.

From the beginning, it has been associated with the web. It has become the go-to language for server-side development projects.

Recently, it has become the primary language for developing Android apps. It executes faster with fewer bugs, and it is backwards compatible with early versions.

The session ended with a very interesting interaction with students.

A Career Guidance Seminar on: "Latest Technologies in the field of IT"

26th July, 2018:

A **Career Guidance Seminar on: "Latest Technologies in the field of IT"** **was conducted by** *Mr. Vipul Singh & Mr. Suraj Vishwakarma, from Ideators.*

A total of 84 students from IT stream attended the session.

Technology today is evolving at such a rapid pace, enabling faster change and progress, causing an acceleration of the rate of change, until eventually, it will become exponential. However, it is not only technology trends and top technologies that are evolving, a lot more has changed this year due to the outbreak of COVID-19 making IT professionals realize that their role will not stay the same in the contactless world tomorrow. And an IT professional in 2020-21 will constantly be learning, unlearning, and relearning (out of necessity if not desire).

The speaker spoke about the following top 9 new and trending technologies:

1. Artificial Intelligence (AI) and Machine Learning
2. Robotic Process Automation (RPA)
3. Edge Computing
4. Quantum Computing
5. Virtual Reality and Augmented Reality
6. Blockchain
7. Internet of Things (IoT)
8. 5G

9. Cyber Security

The session ended with a very interesting interaction with students.

Report

Emotional Intelligence and Soft Skills

Date: 30th January, 2019: The Placement Cell of The S.I.A. College of Higher Education, Dombivli (E) organised a lecture of ' **Importance of Emotional Intelligence and Soft Skills in an organisation.'** The resource person for the session was **Mr. Arunkumar Dubey,** Assistant Professor in Somaiya College and visiting faculty in 'K. J. Somaiya Institute of Management Studies and Research.' He is the founder of 'Chalk and Talk Foundation' which works in the areas of education and research at national level. 89 students from SY and TY BMS attended the session.

Mr. Arunkumar Dubey explained the concept of emotional intelligence and its significance in organisations. Management is the art of dealing with people and hence it is important for a managers to have a high degree of emotional intelligence. He noted that often success in one's career depends more on emotional intelligence than plain IQ. Emotional intelligence or EQ is the ability to understand and manage one's emotions, empathize with others, overcome conflicts, and develop self - awareness. Emotional intelligence also consists of the ability to understand, interpret and respond to the emotions of others.

The speaker also emphasized on the importance of learning and developing soft skills to be a successful professional. Soft skills such as communication, creativity, listening,

time management, empathy and inter-personal skills will help one scale the organisation ladder. He impressed upon the students the importance of nurturing soft skills. He encouraged students to develop a learning mindset and practice self - reflection.

Report : Careers in BFSI Sector

8th February, 2019: An expert session on ***'Careers in BFSI sector'*** was organised by the Placement Cell on 8th February, 2019. The resource person for the session was **Mr. Ganesh Matta from National Stock Exchange.** A total of 186 students attended the session.

Mr. Ganesh Matta delivered the lecture on the scope for employment in Banking, Financial Services and Insurance (BFSI) sector. The BFSI sector comprises of Banking and financial institutions, investment banks, mutual funds, NBFCs, insurance companies and other financial institutions. The speaker pointed out that BFSI sector in India was growing and would continue to provide employment to skilled and knowledgeable workforce. He also explained how technology will act as a disruptive force in the BFSI space, and at the same time adding new job opportunities for the digitally proficient.

The speaker noted that Mumbai being the financial hub of the country, there is a vast scope for fresh graduates who are ready to take a plunge in the industry. The remuneration and career progression in the BFSI being one of its attractions for the young aspirants. He also explained about various certifications offered by NSE. These certifications will help the students to accumulate the skills needed to succeed in BFSI sector. The students gained a lot of relevant information that would guide them in charting their career.

Report : Career Guidance - Entrepreneurship

23rd February, 2019: A session on Entrepreneurship was organised by the Placement cell on 23rd February, 2019. The resource person for the session was **Mr. Vignesh Iyer.** 30 students from BMS attended the session.

Mr. Vignesh Iyer, is a technology and product specialist with several years of experience in IT sector. He is the co-founder and Director of Advayas Tech Solutions. He has worked in the areas of technical design, system architecture and web applications. Mr. Vignesh Iyer delivered a lecture on Entrepreneurship. He shared with the students his own experiences with his start up. He spoke on the challenges and obstacles that one should be ready to face in their entrepreneurial journey.

He emphasised on the importance of passion and drive that would sustain one to become a successful entrepreneur. One must have belief in his idea and should be willing to put in long hours and burn the midnight oil. He shared his belief that entrepreneurship is a long term marathon rather than a quick sprint. The nation needs more job creators and young minds ought to step up to bear this responsibility.

The speaker urged the students to identify opportunities and understand the consumer needs in order to be a successful entrepreneur. Entrepreneurship, the speaker concluded , is the most rewarding vocation.

Report : How to File IT Returns

13th July 2019: A workshop on "How to file IT returns" was organised by IAI, Placement Cell and Buoyancy Club for the students from all streams. 130 Students attended the session.

The speaker for the session ***Ms. Gayatri Srinivasan is a professional CA.***

ITR 1 Form is filed by taxpayers and individuals being a Resident (other than Not Ordinarily Resident) having Total Income up to INR 50 lakhs, having Income from Salaries, One House Property, Other Sources (Interest etc.), and Agricultural Income up to INR 5 thousand. (Not for an Individual who is either a Director in a company or has invested in Unlisted Equity Shares). Also to note down, from now onwards, as mentioned by the tax department, furnishing PAN and Aadhaar card details on the official website of the Income Tax Department is mandatory.

The income tax department has notified ITR forms for taxpayers based on their source of income in order to create a simple tax compliance structure. Therefore, you are required to furnish the return as per the source of your income.

It is important to how to file ITR on time, to avoid last minute stress and penalties. Once you have filed your ITR, the income tax verification form is generated by the IT department so that taxpayers can verify the validity and legitimacy of e-filing. These are applicable only if you have filed your returns without a digital signature.

It is important to have all the relevant documents handy before you start your e-filing process.

The workshop ended with a Q & A session, where the speaker addressed the queries of the students.

Report

A talk on Digital Marketing - Social Media Marketing

19 July, 2019: A session on digital marketing was conducted by ***Mr. Kshitij Kulkarni of Marketing OneX Consulting.*** A total of 64 students from SYBMS and TYBMS (who had opted for marketing specialisation) attended the session. The speaker for the session, Mr. Kshitij Kulkarni is an expert marketer with several years of experience in India and abroad, in the fields of Strategic and digital marketing. Presently, he is associated with Marketing OneX as Principal consultant.

Mr. Kulkarni spoke on the growing importance of digital marketing in the modern business world. He noted that ***social media has emerged as the new frontier in marketing.*** Social media marketing can help an organisation to build a brand, increase sales , and drive website traffic. With ever increasing numbers of online users, and the ease with which it is possible to reach millions of people across the world, digital marketing is gaining increasing prominence in the marketing strategies of organisations.

Mr. Kshitij Kulkarnai elaborated on the unique opportunities and challenges presented by social media marketing. This requires a marketing professional to come up with more creative and out of the box thinking in order to suceed in the digital arena. Thus creative and critical thinking is important for anyone wishing to make a career in this field.

The speaker shared his experience on using data and social media marketing to deliver key results to the clients. Mr. Kulkarni further guided the students on the

career opportunities available in the field of digital marketing. Through interaction with an experienced veteran, the students gained a better understanding of social media marketing.

A Talk on 'Entrepreneurship'

24 July, 2019: A talk on 'Entrepreneurship' was organised by ***IAI in collaboration with the Entrepreneurship Cell.*** A total of 77 students from SYBMS & TYBMS attended the session. The speaker for the session was ***Mr. Anupam Acharya from Mindflex.***

Mr. Anupam Acharya is the Director at Mindflex Soft Skills Training. Having completed his management education from the University of Mumbai, he has conducted numerous training programs in Leadership Training, Public Speaking, Communication Skills, and Social Etiquette for various corporates such as Cheminova Pharma, Varroc Industries, Steinmetz Diamonds and management institutes like Chanakya institute (CIMSR) and VES Institute of Management Studies . He is also a certified practitioner in NLP and hypnotherapy. Being a serial entrepreneur, he is also the co-founder of Ecobricks Energy Solutions LLP.

Mr. Anupam Acharya spoke on entrepreneurship and the skills needed to be a successful entrepreneur. He shared his experience in the entrepreneurial journey with the audience. Along with formal education, one needs to be a creative ***thinker, continuous learner and adaptable to external situations*** to become a successful entrepreneur. Mr Acharya also observed that as a nation, we need more job creators - smart entrepreneurs who can explore business opportunities and bring innovative

ideas to the market. Having a ***positive mindset and a passion to succeed*** is what sustains the long run marathon to becoming a successful entrepreneur.

The inspiring talk ended with Q & A's by the audience where Mr. Anupam Acharya answered the queries put forth by the students. He encouraged the students to dream big and follow their passion.

Report: How to manage money & become a smart investor?

1st August , 2019: An online webinar on **'How to manage money & become a smart investor?'** was organised for BMS students. A total of 123 students attended the session. The speaker for the session was ***Mr. Gaikwad & Ms. Prachi.***

Successful investing involves making choices that meet your unique needs today and your financial goals for the future. Your personal circumstances will affect your decisions every step of the way. Whether one is saving for a home, retirement, or your child's education, you want a plan that will help your money grow. Lots of people are put off investing because they think it's too involved, complicated and risky - or that it should simply be left to the 'professionals'.

The chances are, however, that even if you're new to investing, you already possess lots of the characteristics that smart investors have, and can use some skills to your advantage.

The speakers of the session gave a few tips about managing the finances smartly. They emphasized on Planning for the short- and long-term as well as the unexpected, Assessing the Impact of Fees on Investments, Understanding risk, Making your investments grow faster by reinvesting any interest earned, Understanding the Benefits of Diversification and Knowing the common strategies and techniques fraudsters use.

The session ended with a very engaging Q & A with the students.

Report: Procurement-A logistical function

17th August , 2019: An online webinar on **'Procurement-A Logistical Function'** was organised for BMS students by IAI, Placement cell and Buoyancy Club. A total of 60 students attended the session. The speaker for the session was ***Ms. Mavika Nelugal from Khabari General Trading LLC.***

Procurement is the process of finding and agreeing to terms, and acquiring goods, services, or works from an external source, often via a tendering or competitive bidding process.

Procurement generally involves making buying decisions under conditions of scarcity. If sound data is available, it is good practice to make use of economic analysis methods such as cost-benefit analysis or cost-utility analysis.

Procurement as an organizational process is intended to ensure that the buyer receives goods, services, or works at the best possible price when aspects such as quality, quantity, time, and location are compared. Corporations and public bodies often define processes intended to promote fair and open competition for their business while minimizing risks such as exposure to fraud and collusion.

Almost all purchasing decisions include factors such as delivery and handling, marginal benefit, and price fluctuations. Organisations which have adopted a corporate social responsibility perspective are also likely to require their purchasing activity to take wider societal and ethical considerations into account.

The session ended with a very engaging Q & A with the students.

Report : Workshop on Computer Networks

29 August.2019: A workshop on Computer Networks was organised by IAI to make the students aware about the ***career opportunities and technological developments in Networking.*** 43 Students from TYBSC - IT (Information Technology) stream attended the session.

The speaker for the session ***Mr. Rahul Joshi, from Sappers Solutions*** is a CISCO certified Professional Trainer (CCNA, CCNP, CCSI). He spoke on the developments and career opportunities in the ever evolving field of Networking. He observed that along with a graduate degree in IT, one needs to identify a field of specialisation. ***Computer Networking is emerging as a preferred choice for career focused individuals.***

He further elaborated on the various specialised job roles available in the field of Networking such as Network Specialist, Network Administrator, Network Analyst, Network Engineer, Network Solutions Architect etc. As a Networking specialist, one needs to have problem solving and critical thinking skills. Mr. Rahul Joshi also recommended various vendor certifications such as CCNA, CCNP, CCIE etc. that will help the aspirant to make a career in this field. He further elaborated briefly on related emerging technologies namely Cloud computing. The workshop ended with a Q & A session, where the speaker addressed the queries of the students.

Report: Language Quotient

12th December , 2019: An online webinar on **'Language Quotient'** was organised for BMS students. A total of 99 students attended the session. A good knowledge of foreign languages can open a gateway to a wide range of careers.

With the globalization of the industries, our work, and our education it is becoming compulsory to learn the different languages of the different countries.

Before a couple of decades it was only a hobby course. The people, who wanted to know the history and culture of the second language, only learnt the language. But now, the scene is different. Now the language programme has become a professional career programme. The requirement of experts in second languages is increasing day-to-day. If you need to expand your business abroad, then proficiency in foreign language could be handy for booming your business. In the course of any foreign language, the students are taught about the history of that language, culture of language, people of related countries, methodology of understanding and accent & diction of that language.

The session ended with a very engaging Q & A with the students.

Report :HRM in Global Perspective

1 May , 2020: An online webinar on ***'HRM in Global Perspective'*** was organised for TYBMS HR students. A total of 17 students attended the session. The speaker for the webinar was ***Mr. Arun Kaimal from Danaher Corporation, Singapore.***

Mr. Arun Kaimal is a HR professional with a stellar experience in full Employee Life Cycle operations and a career spanning numerous Geographies, namely, India, Middle East & Africa and SouthEast Asia. He has worked with a number of multinational organisations in various HR roles including project management and change management. In 2012 , Mr. Arun Kaimal was awarded the '***HR Warrior Award***' in recognition of his contributions to the field of HR by the Indira Group of Institutions in India. He was nominated by GE for the SPHR certification which he completed in 2012. He is also a professional coach and a certified SL II Trainer.

The web session was held in the back drop of the pandemic and the accompanying lockdown. The final year students were highly concerned about the job opportunities in the Human Resource sector. Mr. Kaimal shared his views and encouraged the final year students to keep a positive outlook. He enlightened the students on the global trends in HR. He also narrated various anecdotes from his vast experience in the field. Mr. Kaimal elaborated on the scope of HR in various sectors, the importance of ethics, the core -people aspect of HR and the importance of continuous learning and management. He impressed upon the students the key Mantra of - ***'Learn, Unlearn and Relearn.'***

The online talk ended with a very engaging Q & A with the students. Mr Arun Kaimal also shared resource materials and essential HR reading list with the students that he hoped would help them in their career ahead.

Report: How to manage money & become a smart investor?

1st August , 2019: An online webinar on **'How to manage money & become a smart investor?'** was organised for BMS students. A total of 123 students attended the session. The speaker for the session was ***Mr. Gaikwad & Ms. Prachi.***

Successful investing involves making choices that meet your unique needs today and your financial goals for the future. Your personal circumstances will affect your decisions every step of the way. Whether one is saving for a home, retirement, or your child's education, you want a plan that will help your money grow. Lots of people are put off investing because they think it's too involved, complicated and risky - or that it should simply be left to the 'professionals'.

The chances are, however, that even if you're new to investing, you already possess lots of the characteristics that smart investors have, and can use some skills to your advantage.

The speakers of the session gave a few tips about managing the finances smartly. They emphasized on Planning for the short- and long-term as well as the unexpected, Assessing the Impact of Fees on Investments, Understanding risk, Making your investments grow faster by reinvesting any interest earned, Understanding the Benefits of Diversification and Knowing the common strategies and techniques fraudsters use.

The session ended with a very engaging Q & A with the students.

Placement Cell - Industry Academia Interface

Report: Procurement-A logistical function

17th August , 2019: An online webinar on **'Procurement-A Logistical Function'** was organised for BMS students by IAI, Placement cell and Buoyancy Club. A total of 60 students attended the session. The speaker for the session was ***Ms. Mavika Nelugal from Khabari General Trading LLC.***

Procurement is the process of finding and agreeing to terms, and acquiring goods, services, or works from an external source, often via a tendering or competitive bidding process.

Procurement generally involves making buying decisions under conditions of scarcity. If sound data is available, it is good practice to make use of economic analysis methods such as cost-benefit analysis or cost-utility analysis.

Procurement as an organizational process is intended to ensure that the buyer receives goods, services, or works at the best possible price when aspects such as quality, quantity, time, and location are compared. Corporations and public bodies often define processes intended to promote fair and open competition for their business while minimizing risks such as exposure to fraud and collusion.

Almost all purchasing decisions include factors such as delivery and handling, marginal benefit, and price fluctuations. Organisations which have adopted a corporate social responsibility perspective are also likely to require their purchasing activity to take wider societal and ethical considerations into account.

The session ended with a very engaging Q & A with the students.

Report: Language Quotient

12th December , 2019: An online webinar on **'Language Quotient'** was organised for BMS students. A total of 99 students attended the session. A good knowledge of foreign languages can open a gateway to a wide range of careers.

With the globalization of the industries, our work, and our education it is becoming compulsory to learn the different languages of the different countries.

Before a couple of decades it was only a hobby course. The people, who wanted to know the history and culture of the second language, only learnt the language. But now, the scene is different. Now the language programme has become a professional career programme. The requirement of experts in second languages is increasing day-to-day. If you need to expand your business abroad, then proficiency in foreign language could be handy for booming your business. In the course of any foreign language, the students are taught about the history of that language, culture of language, people of related countries, methodology of understanding and accent & diction of that language.

The session ended with a very engaging Q & A with the students.

Report

A talk on: "Career Opportunities in Banking, Finance & Insurance"

11 July, 2019:

A session on Career Opportunities in Banking, Finance & Insurance was conducted by ***Ms. Savita Shrikant Bodke,*** faculty at many renowned institutes like NMIMS, AIMS, MET, Sydenham, D.Y. Patil etc. A total of 105 students from SYBMS and TYBMS (who had opted for marketing specialisation) attended the session. The speaker for the session, Ms. Savita Shrikant Bodke specializes in Equity Markets, Derivatives Markets, Security Analysis & Portfolio Management , Wealth Management, International Finance, Financial Management, Advance Accounting, Analysis of Financial Statements, with more than 10 years of experience in India and abroad. Presently, she is Chairperson ,Paper Setter,Moderator,Examiner of University of Mumbai.

She was also appointed as an Expert, nominated by Honorable Vice Chancellors (V.C) of the University of Mumbai in the interview panel for appointment of Assistant Professors.

Mr. Kulkarni spoke on the growing importance of digital marketing in the modern business world. He noted that ***social media has emerged as the new frontier in marketing.*** Social media marketing can help an organisation to build a brand, increase sales , and drive website traffic. With ever increasing numbers of online users, and the ease with which it is possible to reach millions of people across the world, digital marketing is gaining increasing prominence in the marketing strategies of organisations.

The speaker elaborated on the unique career opportunities in the field finance-especially banking & insurance. She talked in reference to the current situation of pandemic & how the world economic scenario is affected. However she assured our students that these industries have a huge potential to adapt & revive.

The speaker explained the various job roles such as Public accounting, Investment banking, Portfolio management etc. She explained how financial services are rapidly evolving in the current technology-led world. So, your career choices need to be future-oriented. She emphasized that before they opt for a postgraduate degree or certifications like CFA or FRM, it would be best to evaluate your options and chalk out a strategic plan to realize your personal and professional objectives.

Placement Cell - Industry Academia Interface

Report

A talk on: "Towards Smart Goals & Career Development"

24th July 2020

A session on **"Building Positive Attitude & Developing Self-discipline"** was organized by the placement cell and Buoyancy Club. A total of 62 students from BMM.

The resource person for the webinar was Prof. Rajini Anand. She is an experienced speaker from IBS Business school, one of the top MBA colleges - which has 9 campuses all over india. Prof. Rajini Anand has completed her MFM, DHRM, and currently she is pursuing Phd. She's also a CELTA certified professional from the University of Cambridge with 19 yrs of experience across industry and academics.

The speaker started with explaining the term SMART. Goals are part of every aspect of business/life and provide a sense of direction, motivation, a clear focus, and clarify importance. SMART is an acronym that you can use to guide your goal setting.

Its criteria are commonly attributed to Peter Drucker's Management by Objectives concept. The first known use of the term occurs in the November 1981 issue of Management Review by George T. Doran. Since then, Professor Robert S. Rubin (Saint Louis University) wrote about SMART in an article for The Society for Industrial and Organizational Psychology. He stated that SMART has come to mean different things to different people, as shown below.

To make sure your goals are clear and reachable, each one should be:

1. Specific (simple, sensible, significant).
2. Measurable (meaningful, motivating).

3. Achievable (agreed, attainable).
4. Relevant (reasonable, realistic and resourced, results-based).
5. Time bound (time-based, time limited, time/cost limited, timely, time-sensitive).

The speaker also explained pros & cons of the concept. SMART is an effective tool that provides the clarity, focus and motivation you need to achieve your goals. It can also improve your ability to reach them by encouraging you to define your objectives and set a completion date. SMART goals are also easy to use by anyone, anywhere, without the need for specialist tools or training.

Various interpretations of SMART have meant that it can lose its effectiveness or be misunderstood. Some people believe that SMART doesn't work well for long-term goals because it lacks flexibility, while others suggest that it might stifle creativity.

In the end the speaker answered all the queries asked by the students.

A talk on: "Building Positive Attitude & Developing Self-discipline"

24th July 2020

A session on **"Building Positive Attitude & Developing Self-discipline"** was organized by the placement cell and Buoyancy Club. A total of 60 students from BMM and 77 students from BMS attended the session.

The resource person for the webinar was Prof. Rajini Anand. She is an experienced speaker from IBS Business school, one of the top MBA colleges - which has 9 campuses all over india. Prof. Rajini Anand has completed her MFM, DHRM, and currently she is pursuing Phd. She's also a CELTA certified professional from the University of Cambridge with 19 yrs of experience across industry and academics.

Prof. Rajini Anand Ma'am started the session with the questions, Why should we have self discipline in our life? What is the importance of having self discipline in our life? She said DIP
in which D stands for discipline,determination I stands for intention,intensity P stands for persistent. Then mam said that what we should 'ADD' and 'DELETE' from our life then she did a interactive session were the students were putting forth their thoughts that what they should ADD and DELETE from there life for ex: we should add good memories,we should have well wishers,positive thoughts,etc and what we should delete is negative thoughts, ego, bad memories, procrastination, etc. Then she talked about strength and weakness. Here she took an activity where she told the students to note down their strengths and weaknesses. In the next activity, the resource person shared a time management chart in that there were 4

boxes namely - **Manage, Focus, Avoid, Delegate.** The activities included categorising the various tasks on the basis of their urgency and importance.

She emphasised that that everyone should have S.M.A.R.T goals in which S stands for specific, M stands for measurable, A stands for achievable, R stands for realistic, T stands for time bound. This was followed by a discussion on learning from our mistakes and motivation. Technology can be used for a good purpose like for setting reminders. The resource person urged the students to follow social isolation or digital detoxification so that our mind will be relaxed. One should also give importance to Yoga and meditation.

The speaker noted that diet and fitness as well as positivity and communication are important for a healthy and fulfilling life.Having positive communication with people can keep a good mindset. The conclusion of the session was - **Take baby steps, have a disciplined life.'**

Placement Cell - Industry Academia Interface

Report

A talk on: "Information Technology in Business"

25 July, 2020:

A session on Information Technology in Business was conducted by *Mr. Vijay Halpeth,* an Electronics & Telecommunications engineer with a Post-Graduation in Automation & control engineering from IIT Chennai. He is a gold medalist from IIT Chennai. He sailed as an electronics engineer on board merchant ships for 15 years & travelled all around the world. This was followed by posting in Italy, China & Japan for a period of 5 years for management of new ships from the shipyard in Italian office.

For the last 9 years, sir has been working for a software company in various roles & has created his own ERP for the shipping industry. Presently sir is the Head of Operations at Mumbai Office with a team of 25. Sir is a functional consultant for maintenance systems, Procurement & Supply chain management for clients in Europe & North America.

A total of 93 students from SYBMS and TYBMS (who had opted for marketing specialisation) attended the session. Information technology drives innovation and innovation is the path to business success. Innovation in business has the same impact that steam had on the industrial revolution. In fact, it's hard to imagine any business that has not benefited from the digital revolution. Even something as hands on as agriculture uses computers. Farmers use computers for production records, financial planning, research on technical issues, and procurement.

Nowadays the formula for business success is simple: drive innovation with information technology. So, the first thing startups in any industry try to figure out is

how to make smart IT recruiting choices. Without a backbone of information technology, a business is not going to go far.

Information technology fosters innovation in business. Innovation results in smarter apps, improved data storage, faster processing, and wider information distribution. Innovation makes businesses run more efficiently. And innovation increases value, enhances quality, and boosts productivity. Innovation through information technology has created the following radical changes in business. To conclude the speaker explained how IT has accelerated business growth in 5 ways:

1. It develops business tools to solve complex problems.
2. Enables better decision making
3. Improves marketing
4. Improves customer support
5. Improves resource management.

If the purpose of business is to increase profits, then innovation is the way to make more profits, faster.

The session ended with a very interesting interaction with students.

Career Opportunities in the Beverage Industry

11 December 2020: On 11th December, 2020 an online session on ***'Career Opportunities in Beverages Industry'*** was organised by the Placement cell and Buoyancy Club. The speaker for this session was **Ms. Priyanka Devsaria,** Beverage trainer and consultant. 72 students from BMS attended the session.

Ms. Priyanka Devsaria has conducted workshops and seminars for Hotel Management colleges like D.Y. Patil, Anjuman -i- Islam, Sofia College, etc. and has trained more then 1000 students. She has formal training and rich experience in hospitality and is a Certified Bartender from Wines and Spirit Education Trust. She shared with the students her journey off the beaten path, the challenge of convincing her parents and the opportunities she was able to secure due to her persistence in following her passion.

Beverage tasting and presentation is an important component of hospitality industry. The experts in the field are often sought by premium restaurants, 5 star hotels, Cruise hospitality etc. The speaker stressed on the significance of presentation, knowledge and skills to succeed in the niche field. She further shared her experience of working with different hotel groups. As a consultant, she has helped several restaurants in designing their beverage menu.

It was a very interactive session with several queries being put forth to the speaker who resolved all the doubts happily. In response to a query, the speaker clarified that one does not necessarily have to complete a hospitality management degree to

become an expert in bar-tending. There are some good courses on beverage consulting which would help one pursue a career in this field. She further explained that experience is highly valued in this profession. Further for wine tasting, it is important to have good taste buds and the expertise to pair the right type of wine with different dishes in the culinary arts.

Placement Cell - Industry Academia Interface

Report

Super memory secret in 90 minutes by Mr. Ashish Bobade.

12 December 2020: A guest lecture on **'Super Memory Secrets'** was organised by IAI, Placement Cell and Buoyancy Club. The speaker for the session was **Mr. Ashish Bobade** from the Brain Gyan Academy. 125 students from BMS attended the session.

Mr. Ashish Bobade is a Certified NLP practitioner, Life Coach, best selling author and Trainer. Mr. Ashish shared the story behind starting the Brain Gyan Academy. Mr. Ashish Bobade was a successful IT professional with about a decade of experience. Unfortunately, he suffered from a brain stroke due to work pressure and stress which led to him not being able to remember any numbers or words. He further shared with the audience as to how he recovered from the trauma. During this period he researched and applied the science of memory power. Through Brain Gyan Academy, Mr. Ashish aspires to share the memory techniques that he has learnt and mastered with others. ***His goal is to make 1 lakh super learners throughout the whole world.***

He then went on to give an illuminating lecture on how the brain works while retaining information and how college students ought to know more about this to improve their academic performance. He explained the concept of forgetting curve. In simple words, a forgetting curve is a graph that tells how much we learn or remember from different forms of learning like writing, reading, doing. Practical learning is most effective. When a subject is explained through a practical method the brain retains 90% of the whole information.

The speaker explained to the students how perception works and why every individual's perception is unique. Experience sets our perception. He elaborated on this with the help of an optical illusion. Then an exercise was conducted to test and enhance the memory power of the participants. He taught the students a simple and effective way to remember everything presented to them. The trick was to make up stories involving the words or concepts in the given order.

The speaker stressed on how the brain misses several details or things because it isn't looking for them. The brain is focused entirely on the task at hand.

Further in the session, the speaker taught a Neuro Linguistic Programming (NLP) technique, where he guided the students to project their painful memories into a television and then muting those memories and eventually erasing them. Towards the end the speaker talked about the different courses Brain Gyan academy provided to everyone like spaced repetition and mastering memory techniques.

Report : Investor Awareness Program

05 March, 2021: An online session on **'Investor Awareness'** was conducted by IAI of The S.I.A. College of Higher Education, Dombivli, East. The speaker for the session was **Ms. Maitreyee Ghosh,** Visiting Professor and a Learning and Design specialist. A total of 40 students attended the session.

The session started with a short video on UTI Mutual Fund. The guest speaker Ms.Maitreyee Ghosh explained the concept of inflation and how investment acts as a safeguard against the falling value of money. She emphasized the three aims of investment - **Wealth Creation, Wealth Preservation and Risk Preservation.** Students learnt about the various investment opportunities such as Gold, Bonds, insurance, bank deposits, stock, property, etc. and the need to have a balanced portfolio.

The speaker then explained about Mutual Funds, how they work and the benefits that Mutual Funds offer to an investor. Students learnt about Asset allocation and investing in Mutual Funds through Systematic Investment Plans (SIPs). SIPs are an attractive option for young earners. Here an investor chooses a mutual fund scheme and invests the fixed amount of his choice at fixed intervals. She also stressed on the importance of starting early-on in the journey of investment and effectively future proofing one's savings.

Placement Cell - Industry Academia Interface

Report

Date: 26 June, 2021: An online expert session on **'Trends in Cloud Computing and Tomcat Server'** was organized by the Placement Cell of **The S.I.A. College of Higher Education, Dombivli (East)** on **26th June, 2021**. The resource persons for the session were **Mr. Saikumar and Mr. Vignesh Iyer.** The session was open for all the teaching and non-teaching staff from the four sister institutions of **The S.I.A. Association - *The S.I.A. College of Higher Education, College of Physiotherapy, The S.I.A. Primary and KG School and The S.I.A. High School and Junior College.*** A total of **147** participants attended the session. The session was conducted on Microsoft **Teams platform** from **2:30 PM to 5:30 PM**.

The first session on ***'Trends in Cloud Computing'*** was conducted by the resource person Mr. Saikumar. Mr. Saikumar, a SIA High School and Junior College alumni from 1992 batch has over 20 years of experience in IT industry. His expertise is in the areas of Business Development, Technical Sales, Network and Security, Data Center, Virtualization, HCI, Cloud Computing, and SD-WAN. He has worked for organizations like VMware, Palo Alto Networks, Nutanix, and Cisco to name a few. He holds a Bachelors of Engineering degree and has various industry recognized certifications namely, Cisco Certified Internet work Expert, VMware Certified Professional, Diploma in Cyber Law and many more.

In his lecture, Mr. Saikumar took the audience through the emergence and evolution of cloud computing and its need in current business scenario. He stressed upon the economical and logistical benefits offered by virtualization both to small establishments and start - ups and large institutions. Virtualization is all about

abstraction of hardware resources, pooling of hardware resources and automation of hardware resources. Sir explained with examples, the difference between private data centers and public data centers. Data centers in public or cloud platform offers several advantages to organizations in the form of enterprise reach, elasticity and scalability, automation and economies of scale. He recommended industry recognized certifications in cloud computing that would benefit the students who are interested in making a career in this field. The session ended with a demonstration of how to start an account in the AWS server.

The resource person for the second session on **Tomcat server was Mr. Vignesh Iyer**, a technology and product specialist with numerous years of experience in several organizations, namely BOB Financial Solutions, BillDesk, Adyavas Tech Solutions, 3i infotech Ltd, etc.

He has launched innovative financial solutions, developed web applications and managed system architecture. He has managed product development teams and handled technical design and product stack. He is also highly active in the educational domain having delivered guest lectures on subjects related to I.T. and also actively mentored students in academia.

In his lecture, Mr. Vighnesh Iyer covered overall briefs about Tomcat Server and its need. He has shown all the steps for TOMCAT SERVER Installation. He also covered what the default port is and we can change it if required. He also added that it can be used with java eclipse. Session was very useful from a technical perspective.

A feedback link was shared with the participants at the end of the session.

Accredited Grade B+ by NAAC.

Report

Zero Code : Developing a Website/App without Coding

14 May, 2021. An Industry Academia Interface Session on Zero Code Programming was organised by the Placement Cell on 14th May, 2021. The technical expert for the session was Mr. Bharath Kumar. A total of 93 students from all streams attended the session that was conducted through the Zoom platform.

The Zoom call registration link of the session was circulated among the students through class WhatsApp group on 13th May 2021. On 14th May, 2021 the session started at 12:00 PM. Prof. Booma Halpeth, convenor of the Placement Cell introduced the guest speaker and the topic of the session Zero Code :'Developing A Website/App Without Coding'. The resource person very patiently explained the idea of Zero Code using PPT.

Zero Code enables one to develop apps, websites , mobile and enterprise grade programs and applications without knowledge of deep Coding. It is a game changer in the sense that it would enable people without technical and engineering background to develop apps and websites. Since the world is rapidly moving towards a digital sphere, applications like Zero Code would help people without technical knowledge to develop their own websites and apps.

The speaker emphasised that learning Zero Code would add to the employability skills of the students and help them to kick start their software career. A special code was given for the students of SIA college, using which the 'Early Bird' course of 7500/- could be availed for just Rs. 4980/. The session was very lively, interactive and informative and ended on a good note.

Booma Halpeth.

Placement Cell Convenor.

Dr. Padmaja Arvind
